## **I. Report to shareholders**

- A. 2025 Business performance 1
- B. 2026 The Company's business plan summary 1

## **II. Report on corporate governance**

- A. Data on directors, president, vice presidents, assistant vice assistant presidents, and chiefs of various divisions and branches 5
  - (A) Data on directors 5
  - (B) Management Team 16
- B. Compensations for directors (including independent directors), president, and vice presidents in the recent year 18
  - (A) The company summarized disclosure in the form of pay range and names of payees 18
  - (B) Compensation for President and Vice President 21
  - (C) The company and all companies in the consolidated statements, in recent two years, analysis of ratio of the total compensations for the company's directors, president, and vice presidents in after-tax net profits of Individual or individual financial report 24
- C. Operation of corporate governance 26
  - (A) Operating status of the board of directors 26
  - (B) Operation of the auditing committee 30
  - (C) Operating status of corporate governance and difference from "Corporate Governance Best Practice Principles for TWSE/TPEX Listed Companies" and reasons 33
  - (D) Disclosure of information on directors' professional qualifications and independence of independent directors 48
  - (E) Attendance of Members at Sustainable Development Committees Meetings 51
  - (F) Status for fulfilling social responsibilities 53
  - (G) Status for implementation of ethical management and measures 87
  - (H) Disclose other important information conducive to the understanding of the operation of the company's corporate governance 95
  - (I) Execution status of internal control system 96
  - (J) Major resolutions of shareholders' meeting and the board of directors in the recent year and as of the date for the publication of the yearbook 97
  - (K) Opinions of director or supervisor on record or in written statement different from major resolutions of the board of directors in the recent year and the current year as of the date of the publication of the annual report 103
- D. Information on professional fee for certified public accountants 104
- E. Information of changing CPA 105

F. The company's chairman, president, or financial or accounting manager serves at the accounting firm of certified public account or its affiliate in recent one year, disclose his/her name, title, and period of service at the accounting firm or its affiliate	106
G. The situation of share transfer and change in shareholding mortgage by directors, managerial staffers, and shareholders with over 10% shareholding in the recent year and as of the date of the publication of the yearbook	107
H. Top 10 shareholders in terms of shareholding percentages and their interrelationship	109
I. The amount of total shareholding of the company and the company's directors, managerial staffers, and directly or indirectly controlled enterprises in an invested enterprise and percentage of the shareholding	111
<b>III. Fund raising</b>	
A. Capital and shares	112
(A) Source of share capital	112
(B) List of Major Shareholders	112
(C) The company's dividend policy and execution status	113
(D) Effect of proposal of stock grants at the shareholders' meeting on the company's business performance and earnings per share	113
(E) Compensations for employees and directors	113
(F) Share buyback by the company	114
B. Issuance of corporate bonds	114
C. Issuance of special shares	114
D. Issuance of overseas depository receipts	114
E. Issuance of employee stock option certificates	114
F. Managerial staffers with acquisition of employee stock option certificates and names of top 10 employees with largest number of employee stock option certificates and status of acquisition and subscription	114
G. Issuance of restricted stock awards	114
H. Managerial staffers with acquisition of restricted stock awards and names of top 10 employees with largest number of restricted stock awards and status of acquisition	114
I. Issuance of new shares for acquisition of other company or transfer of other company's shares	114
J. Status for the execution of fund utilization plan	114
<b>IV. Business Status</b>	
A. Business contents	115
(A) Business scope	115
(B) Industry status	116
(C) The State of Technology and Research & Development	121
(D) Long- and short-term business development plan	121
B. Market and production and sales overview	125
(A) Market analysis	125

(B) Major purposes and production processes of various products	130
(C) Supply status of major raw materials	132
(D) Names of customers/suppliers accounting for over 10% of the procurement (sales) of the company in the two recent years, their values and shares	133
C. Human Resources	135
D. Information on environmental-protection outlay	135
E. Labor-management relationship	140
F. Information and Cyber Security Management	144
G. Important contracts	146
<b>V. Financial status, review and analysis of management performance, and risk items</b>	
A. Review and analysis of financial status	147
B. Review and analysis of management performance	148
C. Review and analysis of cash flow	149
D. Influence of major capital outlays in the recent year on finance and business	150
E. Reinvestment policy, major reasons for profit or loss, improvement plan, and investment plan in the coming year	150
F. Risk items	151
G. Other important items	155
<b>VI. Items with special registration</b>	
A. Data on affiliates	156
B. Disclose the status of securities issuance via private placement as of the publication of the annual report	156
C. Other necessary supplementary explanation	156
D. Whether or not there is items with major influence on shareholders' equity or securities prices, as stipulated in item 3-2 of article 36 of the Securities and Exchange Acts	156
E. Guidelines for Ethical Conducts of the Company's Directors, Supervisors and Managerial Staffers	157

# I. Report to shareholders

## A. 2025 Business Performance

The Company's consolidated revenue for 2025 amounted to NT\$27,543.79 million, a decrease of NT\$1,171.92 million, or 4.08%, compared to NT\$28,715.71 million in 2024. The Company's consolidated pre-tax profit for 2025 was NT\$1,061.82 million, a decrease of NT\$591.75 million, or 35.79%, compared to NT\$1,653.57 million in 2024.

Looking back at 2025, amid multiple challenges including U.S. tariff policies, exchange rate fluctuations, and geopolitical conflicts, end-market demand remained cautious. Economic conditions exhibited volatility amid heightened inflationary pressures. In response to exchange rate fluctuations and rising labor and energy costs, the Company continued to pursue integration initiatives, advancing refined production and cost-control measures.

In the face of external competitive pressures and economic uncertainty, the Company adjusted its product portfolio in a timely manner to capture global demand for low-carbon textile products. By utilizing recycled and environmentally friendly raw materials and introducing advanced processing technologies, the Company has developed high value-added, eco-friendly functional products. At the same time, leveraging its global footprint to mitigate regional risks, the Company flexibly allocated capacity across its three regions and five plants, strengthened strategic partnerships with brand customers, reinforced its supply chain, enhanced its sustainable development competitiveness, and maintained customer satisfaction and long-term relationships, thereby establishing a development model characterized by both environmental and economic resilience.

## B. 2026 The company's business plan summary, company development strategy in future, Influenced by the external competition environment, regulatory environment and overall business environment.

### (A) Functional synthetic woven fabrics:

The Company's functional synthetic woven fabrics end markets primarily cover four categories: sportswear, outdoor performance, casual fashion apparel, and umbrellas. In 2025, under the combined impact of inflationary pressures and tariff uncertainties, brand customers remained cautious. In response to rapidly changing market conditions, the Company effectively leveraged resources across its Taiwan and overseas plants, actively maintained customer relationships, and continued to develop new customers. At the same time, the Company advanced the development of high-value, differentiated, and green products, optimized production processes, and enhanced value-added services.

The Company partnered with the Taiwan Textile Research Institute (TTRI) to develop a globally unique polyamide-based nanofiber electrospinning membrane, which can be applied to high-performance waterproof, breathable, and moisture-wicking fabrics. This innovative eSMORE-TEX™ fabric was showcased at the TITAS exhibition. A production line for polyamide nanofiber waterproof, breathable, and moisture-wicking membranes has been established at the Company's Taiwan facility. The introduction of this technology will further enhance the Company's competitive advantages and industry influence. In addition, this polyester-based fabric enables true "Textile-to-Textile" recycling (T2T). The Company has also

expanded GORE production capacity in Vietnam to strengthen its overall supply chain.

Looking ahead to 2026, supported by strong technical capabilities in high-end functional products and long-standing relationships with major sports and outdoor brand customers, the Company will continue to position Taiwan as its operational hub. Under its global strategy of localized supply, the Company will deepen integrated collaboration across its three regions and five plants, strengthen cross-regional capacity integration and operational resilience, actively pursue brand orders, and allocate capacity across regions based on customer needs to ensure stable lead times, consistent quality, and overall cost efficiency. The Company will also continue to advance digital transformation and optimize its supply chain, actively expanding into new customers and markets, while further strengthening applications across the three major end markets of sportswear, outdoor performance, and casual fashion apparel, thereby enhancing overall market competitiveness. Additionally, we will leverage big data analytics and automation equipment to continuously optimize equipment, processes, and quality management, improving first-pass dyeing success rates, production efficiency, and quality stability. At the same time, we will collaborate with garment supply chain partners to promote the application of recycled materials, continuously develop sustainable and eco-friendly products and processes. The Company will fully commit to achieving the business goals set for 2025.

#### (B) Tire cord fabric

Looking back at 2025, the high inventory levels in tire cord fabrics have been resolved. Sales of high-value single-ply cord fabrics increased year-over-year, and demand for polyamide 6 eco-friendly single-ply cord fabrics grew steadily on a quarterly basis. The Company actively integrated tire cord production capacity, increased the production of high value-added products such as bicycle tire cord fabrics and anti-abrasion fabrics, and expanded adoption among brand customers. By effectively leveraging resources between its Taiwan and Vietnam plants, the Company reduced costs and maximized operational efficiency.

Looking ahead to 2026, the tire cord business will focus on differentiated and high value-added product positioning. With production line integration successfully completed, operational momentum is expected to gradually materialize. Leveraging polyamide, fine denier yarns, and ocean-recycled fibers as key raw materials, the Company will promote sustainable high-value applications and expand penetration into high-end and niche markets. The Company will continue to focus on applications of nylon-based materials, increasing the share of products such as anti-abrasion and puncture-resistant fabrics, targeting the two-wheeler market – including motorcycles and bicycles – to drive overall growth in the tire cord business.

#### (C) Functional yarn

Looking back at 2025, demand declined throughout the year due to the appreciation of the New Taiwan dollar and the impact of reciprocal tariffs in the second quarter. As a result, revenue from the functional yarn segment decreased by 7.3% compared to 2024. In response to rapidly changing external conditions, the Company flexibly adjusted equipment to accommodate different product mixes, while strictly controlling production costs. At the same time, the Company actively pursued government project subsidies to maintain stable growth in overall performance.

Looking ahead to 2026, the Company will focus on developing niche products, further

optimizing its product portfolio, and securing continued support from government technology programs to develop new differentiated products. The Company will also actively participate in major global textile exhibitions to enhance market visibility and effectively expand the market share of functional yarn products, thereby improving profitability.

(D) Special fabrics

Looking back at 2025, the Company's special fabrics segment was impacted in the Southeast Asian market, with both sales volume and pricing falling short of expectations due to low-priced competition from China and India in the fire-resistant fabric market. In addition, demand in the medical fabric market declined significantly as low-priced competitors from China captured market share. Meanwhile, demand from Middle Eastern refineries for fire-resistant oilfield workwear continued to grow steadily.

Looking ahead to 2026, with market demand diversifying and rapidly changing, the Company actively respond to customer needs and market trends, focusing on expanding the Middle Eastern refinery market for oilfield workwear and military/police uniforms, which is expected to continue growing. Additionally, the Company fully strive to secure orders for military and flight suit fabrics from the United States and explore the potential applications of electrostatic fabrics in the environmentally-friendly, antimicrobial, and highly breathable medical fabric markets, further deepening market expansion. To enhance its competitive advantage, the Company will engage in strategic collaborations with raw material suppliers, aiming to reduce production costs while maintaining a market-leading position. The Company is committed to achieving its operational performance goals for 2026 and driving the continued growth of its special fabrics business.

(E) Carbon-fiber composite material

Looking back at 2025, the bicycle and sports equipment industries continued to digest excess inventory accumulated during the pandemic, with demand expected to return to normal levels by the third quarter of 2026. The Company successfully developed high-value materials for robotic arms in Japan and bicycle handlebar applications, driving an increase in related orders. At the same time, orders from applications such as marine vessels, cooling tower blades, and export-oriented surfboards grew steadily, supporting an increase in overall shipment volume, with sales rising by 2% compared to 2024.

Looking ahead to 2026, the Company will actively develop diversified carbon fiber fabric products to meet varying customer needs, focusing on expanding applications in the fields of construction and structural reinforcement for equipment. The demand for carbon fiber woven fabrics is expected to continue growing. The Company also actively expanded into new application areas, including footwear materials, unmanned vessels, remote-controlled equipment, and medical components, while extending into the rapidly growing drone segment to enhance overall product competitiveness. In addition, multi-axis fabric products supported by DNV certification for four-axis carbon fiber fabrics will be further developed for applications in the maritime sector. In collaboration with raw material suppliers, the Company will also pursue opportunities in lower-tier wheel rim materials. Going forward, the Company will continue to align with customer needs, strengthen product development and market applications, expand its export market share, and drive steady growth in overall performance.

## (F) Gas stations

In 2025, Formosa Gas Stations operated 106 stations and has long focused on service, promotions, and management performance, making it one of the top five gas station networks in Taiwan. Looking back at 2025, although inflationary pressures and increased demand for new energy vehicles affected fuel sales volume, the Company maintained stable profitability.

Looking ahead to 2026, Formosa Gas Stations will continue to evaluate the operational performance of each station and the length of lease terms, strengthening station staff training, with a focus on public safety, high-quality service, and standardized management. In response to fluctuations in international oil prices, the Company strengthened tank inventory management and actively expanded its contract customer base to enhance profitability. At the same time, it will actively expand new stations and promote marketing campaigns in collaboration with the Formosa Petrochemical APP project. The Company will leverage its channel advantages and social media marketing to promote travel lifestyle products and automotive by-products, meeting customers' diverse and convenient needs.

Looking ahead to 2026, the global economic outlook and supply chain environment remain highly uncertain. Tariff policies, exchange rate fluctuations, and adjustments in market demand will continue to influence industry dynamics and operational performance. Building on a foundation of stable operations, the Company will continue to strengthen its cross-regional capacity integration capabilities and evaluate the establishment of new production bases in response to international market demand, thereby enhancing overall operational flexibility and resilience. At the same time, in a highly competitive industry environment, the Company will remain vigilant and continue to reinforce its competitive advantages across key operational metrics, including speed, efficiency, quality, delivery, and cost, through lean management and ongoing improvement mechanisms. In terms of supply resilience, the Company will leverage flexible capacity allocation and a localized supply strategy to shorten lead times, enhance delivery reliability, and diversify operational risks, thereby mitigating the impact of external volatility on customer service, while continuing to increase the share of differentiated products.

The Company will deepen its partnerships with international brand customers while actively expanding collaboration with small and medium-sized brands. Through consistent quality, high value-added products, and responsive service, the Company aims to strengthen customer trust and actively develop new market momentum. It will also continue to advance the development of differentiated and high value-added products, including eSMORE-TEX™, high-performance tire cord fabrics, functional yarns, and carbon-fiber composite materials, to meet the diverse needs of sports, outdoor, industrial, and other applications. Through the integrated collaboration of its three regions and five plants, the Company will accelerate its product development capabilities and strengthen cross-regional capacity allocation to ensure stable lead times and the high-quality standards required by global customers.

Looking ahead, Formosa Taffeta will uphold its core principles of “sustainable management” and “steady growth,” while continuing to strengthen and refine corporate governance and risk management. Together with global customers and strategic partners, the Company will expand its presence in advanced materials and green textiles, striving to become a globally competitive industry leader. By leveraging innovation and resilience, the Company aims to create long-term value for shareholders and set key milestones for the sustainable development of the industry.

Note 1: For a corporate shareholder, the name of the corporate shareholder and its representative shall be listed separately (when listing the representative of a corporate shareholder, the name of the corporate shareholder shall also be noted), and Form 1 below shall also be completed.

Note 2: Please state the actual age, or, alternatively, state the age interval into which the actual age falls, e.g., 41~50 years, 51~60 years

Note 3: Specify the time the person first began to serve as a director or supervisor of the Company. If there has been any break within a term or between terms, add a note specifying the circumstances.

- (1) Hong Fu-Yuan was designated by institutional supervisor Formosa Chemicals & Fibre Corp. as its representative for the seat on June 17, 2005 before being designated by the latter as its representative for its seat as a director.
- (2) Lee, Ching-Fen was appointed as the director representative by the legal person director Formosa Chemicals & Fibre Corp. on October 15, 2021.

- (3) Lee Ming-Chang served as the company's director on June 14, 2002 before being designated by institutional director Formosa Chemicals & Fibre Corp.as its representative for the seat on June 26, 2014.
- (4) Lee, Chien-Kuan was appointed as the director representative by the legal person director Formosa Chemicals & Fibre Corp. on October 15, 2021.
- (5) Wu, Li-Jen was appointed as the director representative by the legal person director Formosa Chemicals & Fibre Corp. on July 18, 2024.
- (6) Lee Man-Chun was designated by Lai Shu-Wang Social Welfare Charity Foundation as its representative for its seat as an institutional director on March 31, 1998, then for its seat as an institutional supervisor on June 27, 1998, and for its seat as an institutional director again on June 23, 2017.

Note 4: Specify experience and qualifications related to the current position. If during a period specified above the person has served in a position at a CPA firm that serves as external auditor/attestor, specify the position held and the duties for which the person was responsible.

Note 5: Where the chairperson of the board of directors and the general manager or person of an equivalent post (the highest level manager) of a company are the same person, spouses, or relatives within the first degree of kinship, an explanation shall be given of the reason for, reasonableness, necessity thereof, and the measures adopted in response thereto (e.g., increasing the number of independent directors and ensuring that a majority of directors do not concurrently serve as an employee or managerial officer).

Table 1: Major shareholders of institutional shareholders

Currently holds 3,000 shares of the Company in recent two years.</p>	1

## B. Diversification policy for membership of the board of directors

### (1) Diversification of the board of directors:

1. The nomination and election of the Board of Directors of the Company complies with Code of Practice for Corporate Governance of the Company and adopted candidate nomination system. Besides the assessment of each candidate's education and experience, the Company takes stakeholders' opinions into consideration and complies with "Rules for Election of Directors of the Company" and "Corporate Governance Principle" to ensure the diversity and independency of the board members. Besides the knowledge, skills and literacy are necessary for the performance of the Board of Director. To achieve the idol purpose of the corporate governance, the overall abilities of the Board of Directors should include: 1. operational judgment, 2. accounting and financial analysis, 3. operation management, 4. risk management, 5. industrial knowledge, 6. perspectives of the international market, 7. leadership, 8. decision-making, etc.
2. As of the end of April, 2026, the board of the Company consists of 11 directors with diversified backgrounds, professional capabilities, and operating experience. 3 independent directors are among them, accounting for 27.3% of the Board, and one of them is female, accounting for 9% of the Board. However, due to the relatively lower number of female professionals in the petrochemical and textile industries, the proportion of female directors on our Board has not yet reached one-third. We will continue to seek professional female talents from external and diverse fields to serve as directors of the Company. In the short term, we aim to have at least one female director (accounting for 9% of the Board), and in the long term, our goal is to have three female directors, achieving one-third female representation on the Board. Additionally, we aim for more than 50% of our directors to possess experience or expertise across different industries. (such as business management, leadership, decision-making, industrial knowledge, international knowledge, accounting analysis, and legal background) to deepen the independency of the corporate governance and diversification of the board. Please refer to 2.1 data on directors of II. Corporate Governance. The operation of the diversification of the board is indicated below:

Name	Nationality	Gender	Management/professional background and management/decision making capability					
			administration and Management	Leadership and decision making	Industrial knowledge	International knowledge	Financial/ accounting analysis.	Law
Wong, Wen-Yuan FCFC	ROC	Male	V	V	V	V		

Name	Nationality	Gender	Management/professional background and management/decision making capability					
			Management and administration	Leadership and decision making	Industrial knowledge	International knowledge	Financial/ accounting/ analysis.	Law
Hong, Fu-Yuan FCFC	ROC	Male	V	V	V	V		
Lee, Ching-Fen FCFC	ROC	Male	V	V	V	V		
Lee, Ming-Chang, FCFC	ROC	Male	V	V	V	V		
Lee, Chien-Kuan, FCFC	ROC	Male	V	V	V	V		
Wu, Li-Jen, FCFC	ROC	Male	V	V	V	V		
Lee, Man-Chun, Lai Shu-Wang Social Welfare Charity Foundation	ROC	Male	V	V	V	V	V	
Hsieh, Ming-Der	ROC	Male	V	V	V	V		
Lin, Sheng-Chung, independent director	ROC	Male	V	V	V	V		
Kuo, Nein-Hsiung, independent director	ROC	Male	V	V	V	V		
Kuo, Chia-Chi, Independent director	ROC	Female	V	V	V	V	V	

(2) Interdependency of the board of directors:

As of the end of April, 2026, the board consists with 11 directors, and three of them are independent directors, accounting for 27.3% of the board. Besides, no spouse or two degrees of kinship of independent directors serve as the directors of the Company. Except Kuo, Chia-Chi, independent director, who holds 3,000 shares of the Company, other independent directors and their spouses do

not hold the Company's shares. The independent directors do not provide audit, commence, legal, financial, or accounting services and get the payment from them in accordance with article 3 of Regulations Governing Appointment of Independent Directors and Compliance Matters for Public Companies. Other directors do not have their spouses and two degrees of kinship of relatives serve as the Company's directors, which compiles with Article 26-3 of Securities and Exchange Act. Among directors, no relationship of spouse or the relation within two degrees of kinship exist in compliance with Article 26-3-3 and 4 of Securities and Exchange Act. (Relevant information please refer to the data on director.)

Note 1: Professional qualification and experience: The professional qualification and experience of each director and supervisor shall be specified. Where the member of the remuneration committee processes the accounting or finance expertise, its qualification and work experience shall be elaborated and whether involvement in Article 30 of Company Act or not shall be also specified.

Note 2: Independent Director shall state the conditions that qualify them as independent, including but not limited to whether the person, his/her spouse, relatives within the second degree of kinship are appointed as directors, supervisors or employees of the Company or its affiliates; the number and ratio of the shares of Company held by the person, his/her spouse and relatives within the second degree of kinship or under the name of another person; whether the person is a Director, Supervisor or employee of a company that has a specific relationship with the Company (with reference to Subparagraphs 5 to 8, Paragraph 1, Article 3 of the Regulations Governing Appointment of Independent Director and Compliance Matters for Public Companies); and the remuneration received for commercial, legal, financial and accounting services rendered to the Company or its affiliates in the past two years.

Note 3: For the disclosure method, please refer to the template on the Taiwan Stock Exchange Rules & Regulations Directory website.

Note: Corporate director Formosa Chemicals & Fibre Corporation reassigned its representative director effective July 18, 2025, appointing Mr. Wu Li-Jen to succeed Mr. Chen Kun-Yuan as director.

- Please state the policy, system, standards and structure of independent directors' remuneration payment, and describe the relevance to the amount of remuneration according to the responsibilities, risks, time invested, etc.: The Company allocated 0.1% of the pre-tax profit before deduction of employees and directors' compensation for 2025 as directors' compensation, and the amount of provision was NT\$945,786. The independent directors' remuneration is based on a fixed payment system. The main consideration is to maintain their independence and to play a supervisory role. The fixed annual remuneration for independent directors is NT\$1.2 million, and allowance of NT\$10,000 is paid each time according to the attendance of meetings. In order to enable independent directors to fully exercise their powers, independent directors' liability insurance has been insured to ease the work pressure of directors. In addition, the Company has stipulated the "Rules of Independent Directors' Duties", such as independent directors' monthly review of internal audit reports and financial communication with attesting CPA. For details of the meeting attendance of independent directors, please refer to the "Operational Situation of the Board of Directors", "Operational Situation of the Audit Committee" and "Operational Situation of the Remuneration Committee."
- Collection of compensations by directors for provision of services to any of the companies in the financial statement in the recent year, other than those disclosed in the table above (such as consulting for non-employees): nil

\*\* Please list the relevant information of directors (general directors who are not independent directors) and independent directors separately.

Note 1: Names of directors should be listed separately (in the case of institutional directors, the names of representatives should also be listed); And list general directors and independent directors separately, disclose various payment amounts in summarized form; for directors who also hold the positions of president or vice presidents, fill in the table and tables (3-2-1) or (3-2-2) below.

Note 2: Refer to compensations for directors in the recent year (including salaries, job-related allowance, severance pay, various bonuses, and incentive pay).

Note 3: Fill in compensation payouts for directors in the recent year approved by the board of directors.

Note 4: Refer to business execution fees for directors in the recent year (including transportation fees, special allowances, various fringe benefits, dormitory, and company car). For the provision of accommodation, car, other transportation means, or other personal benefits, disclose the nature and cost of such offerings, rentals based on actual amount or calculation of fair market prices, gasoline costs, and other payments. In case chauffeuring service is available, describe pay for the chauffeur without including it in compensations.

Note 5: Payments collected by directors for simultaneous positions as employees of the company (including president, vice president, manager, or other positions), including salaries, job-related allowances, severance pay, various bonuses, incentive pays, transportation expenses, special allowances, various fringe benefits, dormitory, and company cars. For the provision of accommodation, car, other transportation means, or other personal benefits, disclose the nature and cost of such offerings, rentals based on actual amount or calculation of fair market prices, gasoline costs, and other payments. In case chauffeuring service is available, describe pay for the chauffeur without including it in compensations. Salary expenses listed according to share-based payment specified in IFRS2, including share-subscription warrants for employees, employee right for subscription to new shares and participation in cash capital increment, should be included in compensations.

Note 6: Refer to employee compensations (including shares and cash) collected by directors for simultaneous positions as employees of the company (including president, vice president, manager, and other positions) in the recent year. Disclose plan for payout of employee compensations in the recent year approved by the board of directors. If it is impossible to forecast the value of the payout this year, calculate the value, based on the actual payout value last year, and fill in attached table 1-3.

Note 7: Disclose the total of all the compensations paid by all the companies in the consolidated financial statement (including the company) to the company's directors.

Note 8: Disclose the brackets of the total of compensations paid by the company to each director and his/her name.

Note 9: Disclose the brackets of the total of compensations paid by all the companies in the consolidated financial statement (including the company) to each director of the company and his/her name.

Note 10: After-tax net profit refers to net profit after tax in the most recent Individual or Individual financial report.

Note11: a. In the column, fill in the value of compensations for directors of the company paid by parent company or invested companies other than subsidiaries. (If there is none, please fill in "None")

b.If the company's directors collect compensations from parent company or invested companies other than subsidiaries, incorporate the value into column I of compensation brackets and change the name of the column to "parent company and all the invested enterprises."

c. Compensations refer to rewards, pays, and business execution fees paid by parent company or invested companies other than subsidiaries to the company's directors for holding the latter's positions including directors, supervisors, or managers.

Note12: Compensations for the company's 11 directors (including independent directors) are listed separately, since compensations for representatives of institutional directors are collected by institutional directors.

\* Since compensations disclosed in the table are different from the income concept in income tax law, the table is meant for information disclosure, rather than tax levy.

2.Compensations for president and vice presidents

Over NT\$100,000,000	Nil	Nil
Total	4	4

Note 1: Names of president and vice presidents should be listed separately; disclose various payment amounts in summarized form; for directors who also hold the positions of president or vice presidents, fill in the table and tables (1-2-1) or (1-2-2) below.

Note 2: Fill in salaries, job-related allowance, and severance pay for president and vice presidents in the recent year.

Note 3: Fill in payments for president and vice presidents in the recent year, including various bonus, incentive pay, transportation expense, special allowance, various fringe benefits, dormitory, and company car. For the provision of accommodation, car, other transportation means, or other personal benefits, disclose the nature and cost of such offerings, rentals based on actual amount or calculation of fair market prices, gasoline costs, and other payments. In case chauffeuring service is available, describe pay for the chauffeur without including it in compensations. Salary expenses listed according to share-based payment specified in IFRS2, including share-subscription warrants for employees, employee right for subscription to new shares and participation in cash capital increment, should be included in compensations.

Note 4: Fill in employee compensations (including shares and cash) for president and vice presidents approved by the board of directors in the recent year. If it is impossible to forecast the value of the payout this year, calculate the value, based on the actual payout value last year, and fill in attached table 1-3.

Note 5: Disclose the total value of compensations for the company's president and vice presidents paid by all the companies (including the company) in the consolidated financial statement.

Note 6: Disclose the names of president and vice presidents of the company in the brackets for compensations paid by the company.

Note 7: Disclose the names of president and vice presidents of the company in the bracket for the total of compensations paid by all the companies (including the company) in the consolidated financial statement.

Note 8: After-tax net profit refers to net profit after tax in the most recent Individual or Individual financial report.

Note 9: a. Fill in in the column compensations for president and vice presidents paid by parent company invested companies other than the company's subsidiaries. (If there is none, please fill in "None")

b.If the company's president and vice presidents collect compensations from parent company or invested companies other than subsidiaries, incorporate the value into column E of compensation brackets and change the name of the column to " parent company and all the invested enterprises."

c.Compensations refer to rewards, pays (including pays for the positions of employee, director, and supervisor) and business execution fees paid by parent company or invested companies other than subsidiaries to the company's president and vice presidents for holding the latter's positions including directors, supervisors, or managers.

\*Since compensations disclosed in the table are different from the income concept in income tax law, the table is meant for information disclosure, rather than tax levy.

3.Names of managerial staffers receiving payout of employee compensations and the status of the payout

Unit: NT\$1,000; December 31, 2025

	Title (note 1)	Name (note 1)	Stock Value	Cash value	Total (note 2)	Share of the total in after-tax net profit ( % )
Managerial staffers	President	Lee, Ming-Chang	0	3	3	0.000347
	Executive Vice President	Lee, Chien-Kuan				
	Vice President	Wu, Li-Jen				
	Vice President (Corporate Governance Officer)	Cheng, Hung-Ning				
	Accounting Officer	Lee, Shu-Ming				
	Financial Officer	Hsieh, Pi-Hsia				

Note 1: Disclose individual names and titles, along with payout of profits in summarized form.

Note 2: Fill in employee compensations (including shares and cash) for managerial staffers approved by the board of directors in the recent year. If it is impossible to forecast the value of the payout this year, calculate the value, based on the actual payout value last year. After-tax net profit refers to the figure of the recent year; for those having adopted IFRS (international financial reporting standards), the figure refers to the after-tax net profit in individual financial statement of the recent year.

Note 3: According to the definition of the Financial Supervisory Commission (No. 1120384295, October 4, 2023), the scope of managerial staffers includes

- (1) president and equivalent positions;
- (2) vice president and equivalent positions;
- (3) assistant vice president and equivalent positions;
- (4) financial chief;
- (5) accounting chief;
- (6) Other employees with management responsibility and signature right.

Note 4: If director, president, and vice president collects employee compensations (including shares and cash), fill in the above table, in addition to attached table 1-2.

(B)The company and all companies in the consolidated statements, in recent two years analysis of ratio of the total compensations for the company's directors, president, and vice presidents in after-tax net profits of Individual or individual financial report, and explain compensation policy, criteria, and combination, procedure for determination of compensations and their association with business performance.

1.Shares of the total compensation for the company's directors, president, and vice presidents paid by the company and all the companies in the consolidated financial statements in after-tax net profits in recent two years follow:

Unit: %

Year	The Parent Company		Companies in the consolidated financial statements	
	2025	2024	2025	2024
Directors	2.4032	1.2281	2.4032	1.2281
President and Vice Presidents	1.9243	1.2788	1.9243	1.2788

Explanation: The increase of the ratio of total remuneration to Directors, President and Vice Presidents of the Company to the net income resulted from the decrease in profit after-tax in 2025.

2.The policies, standards, and portfolios for the payment of remuneration, the procedures for determining remuneration, and the correlation with risks and business performance:

A. Remuneration policies, standards, and package:

- (1).Remuneration of the Company’s Directors and managers is submitted to Remuneration Committee and Board of Directors for approval.
- (2).According to Articles 18 and 30 of the Association of the Company, the Board of Directors are authorized to determine the remuneration amount based on a Director’s involvement in the Company’s operations and his/her contribution values and in comparison with payments in other business of the same industry.

B. The procedure for determining remuneration:

- (1). If the Company is profitable in the year, it shall pay 0.05% to 0.5% of the pre-tax profit to the employees' remuneration in the current year and at most 0.05% to the directors' remuneration.
- (2). The Company's Independent Directors and some directors receive a fixed amount of compensation monthly as well as reimbursement transportation expenses based on their actual attendance of the Board meetings. No varied remuneration is paid to Independent Directors and some directors. Other directors receive reimbursement for transportation expenses based on their actual attendance of the Board meetings. No other directors'

remuneration is paid to Independent Directors and some directors.

- (3). The President's, Vice President's, and Assistant Manager's compensations are handled in accordance with Articles 26 of the company's Articles of Incorporation and Articles 29 of the Company Act. In addition to fixed monthly salary, year-end bonuses, festival bonuses and special awards are also given subject to the company's operating conditions.

#### C. Remuneration and Performance Evaluation Indicators for Managerial Personnel

- (1). To strengthen the corporate sustainable development and the linkage between ESG performance and remuneration, special rewards are adjusted and issued with reference to the target achievement rate, operating results, industrial safety incidents, water and energy saving, etc. Fixed monthly salary is also adjusted by the Remuneration Committee in reference to the Company's overall employee salary adjustment standards.
- (2). Financial indicators include profit and loss/EBITDA, operational target achievement rate, operational growth rate, and profit contribution.
- (3). ESG Indicators are as follows:

Environment Protection: Environmental sustainability engagement, energy and water saving performance, circular economic benefits, and carbon reduction target achievement rate.

Social Responsibility: Work safety and occupational accidents, product R&D and innovation, and Friendship with neighbors and protest cases.

Corporate Governance: Operational management capability, AI cases and benefits, and fraud cases.

## C. Operation of corporate governance

### (A) Operating status of the board of directors

The board of directors convened 6 times (A) in 2025, with the attendances of directors listed below:

Title	Name (note1)	Number of attendance (B)	Number of attendance via proxy	Attendance rate (%) (B/A) (note2)	Note
Chairman	Wong, Wen-Yuan, FCFC	6	0	100	
Director	Hong, Fu-Yuan, FCFC	6	0	100	
Director	Lee, Ching-Fen, FCFC	6	0	100	
Director	Lee, Ming-Chang, FCFC.	6	0	100	
Director	Lee, Chien-Kuan, FCFC	6	0	100	
Director	Wu, Li-Jen, FCFC	3	0	100	Reassigned on July 18, 2025; newly appointed (Note 3)
Director	Chen, Kun-Yuan, FCFC	2	0	66.67	Reassigned on July 18, 2025; former representative (Note 3)
Director	Lee, Man-Chun, Lai Shu-Wang Social Welfare Charity Foundation	6	0	100	
Director	Hsieh, Ming-Der	5	0	83.33	
Independent director	Lin, Sheng-Chung	6	0	100	
Independent director	Kuo, Nein-Hsiung	6	0	100	
Independent director	Kuo, Chia-Chi	6	0	100	

Other items mandating record:

A. In case there is one of the following situations in the operation of the Board of Directors, specify the date of the meeting, term of the board of directors, contents of agenda, opinions of all the independent directors, and approach of the company in handling the opinions of the independent directors:

(A) Items listed in article 14-3 of Securities and Exchange Act: Not applicable

(B) Except the aforementioned items, resolutions of the board of directors with opposition, or reserved opinions, by any independent director: nil.

B. For abstention of cases by directors due to involvement of related interests, specify the names of directors, contents of agenda, reasons for abstention, and situation of voting:

(A) The 4<sup>th</sup> 2025 meeting of the board of directors on August 12.

Names of director: Lee, Ming-Chang, Lee, Chien-Kuan, Wu, Li-Jen

Contents: Proposal of the salary adjustment of the managers would be in line with employees in 2024.

Reason for abstention: The above Directors were the interested party, so they recused themselves from

discussion and voting.

Situation of voting: All directors, except aforementioned directors, agreed to pass the case.

C. Listed Companies shall disclose the information of self (or peer) assessment of the Board such as evaluation cycles, evaluation periods, scope, method, and the contents of evaluation.

Description : the situation of the evaluation of the Board of directors

---------------	-----------------------	-----------------------------------	--	--	-----------

Note: During the evaluation period, except for the reassignment of the corporate representative of Formosa Chemicals & Fibre Corporation to Mr. Wu Li-Jen on July 18, 2025, all other terms are for one year.

D. Evaluation of execution of objectives for strengthening the functions of the Board of Directors in the current year and the previous years:

- (A) The operation of the Company's board of directors abides by laws/regulations, corporate charter, and resolutions of shareholders' meeting. In addition to the professional knowledge, skills, and literacy related to their positions, all the directors adhere to the principle of loyalty and integrity in the execution of their duties, so as create maximum benefits for shareholders.
- (B) In order to establish a good system of governance for the Board of Director, as well as strengthen its supervisory and management functions, the Company, in addition to the selection of independent directors, has set up the norm for Board meetings, covering contents of agenda, operating procedure, items to be recorded in the minutes of meetings, official notices, and others.
- (C) In order to strengthen the functions of the Board of Directors, the Company, in addition to regular self-examination of the Board's operation, has had its in-house auditors produce monthly auditing report for independent directors' review before the end of the following month, in compliance with the requirements of the securities regulator.
- (D) In line with regulations of securities regulator, the Board of Directors resolved on August 25, 2011 to set up a compensation committee. Three meetings were convened in 2025 to report the standard for providing the year-end bonus of 2024 to the management, in addition, evaluate the compensations of 2025 for directors and managerial officers, and suggestions were proposed and discussed during the board of directors' meeting.
- (E) In line with the requirement of securities regulator, the Company's Board of Directors resolved on June 23, 2017 to set up an auditing committee to replace supervisors. Four meetings were convened in 2025 and resolutions were submitted to the Board of Directors for ratification to implement corporate governance.
- (F) The Board of Directors approved to set up Sustainable Development Committee on May 6, 2022 to realize the sustainable development goals of environment protection, social responsibility and corporate governance. Two meeting was held in 2025, and the resolutions were submitted to the Board of Directors for ratification to implement corporate governance.
- (G) Establishing the KPI to improve the function and efficacy of the board of directors, the board of directors resolved to approve the Self-Evaluation of the Board of Directors on August 7, 2020. 1 internal assessment is carried out per year and report to the board of directors before the first quarter of next year. The evaluation report of Board of Directors was submitted on Dec. 12, 2025.

Note 1: In case director is a judicial person, specify its name and the name of its representatives.

Note 2: (1) In case there is any director leaving the post by the end of the year, the following information should be entered in the note column, including job expiration date, with attendance rate (%) based on division of

the actual number of attendances by the number of committee meetings during his/her service period.

- (2) In case there is reelection for the board of directors by the end of the year, information on both original and new directors should be entered in the note column, including the distinction of previous, new, or continuing membership and the date of reelection, with attendance rate (%) based on division of the actual number of attendances by the number of board meetings during his/her service period.

Note 3: The corporate director of the Company, Formosa Chemicals & Fibre Corporation, reassigned its representative director effective July 18, 2025, appointing Mr. Wu Li-Jen to succeed Mr. Chen Kun-Yuan as director.

(B) Operation of the auditing committee status

The auditing committee convened four times (A) in the year, as of Dec. 31, 2025, with the status of attendance of independent directors listed below:

Title	Name (note1)	Number of attendance (B)	Number of attendance via proxy	Attendance rate (%) (B/A) (note2)	Note
Convener	Lin, Sheng-Chung	4	0	100	Independent Director
Member	Kuo, Nein-Hsiung	4	0	100	Independent Director
Member	Kuo, Chia-Chi	4	0	100	Independent Director

Other mentionable items:

1. If there are the circumstances referred to in Article 14-5 of the Securities and Exchange Act and resolutions which were not approved by the Audit Committee but were approved by two thirds or more of all directors, the dates of meetings, sessions, contents of motion, resolutions of the Audit Committee and the Company's response to the Audit Committee's opinion should be specified.

Audit Committee Meeting Date & Sessions	Agenda and Procedures	Securities & Exchange Act, Article 14-5	Resolutions were not approved by the Audit Committee but were approved by two thirds or more of all directors
Mar. 7, 2025 (1 <sup>st</sup> 2025)	1. Set forth 2024 financial statement of the Company.	✓	-
	2. To formulate the Company's Internal Control System Statement.	✓	-
	Independent director's opinions or objections: None. Resolutions by audit committee: all attended committee approved these agendas. The Company's procedures: The board of directors approved these resolutions.		
May 9, 2025 (2 <sup>nd</sup> 2025)	1. To formulate the business report and financial statement for Q1 2025.	-	-
	2. To revise the Company's shareholder services unit's "Internal Control System" and "Internal Audit Implementation Guidelines"	✓	-
	Independent director's opinions or objections: None. Resolutions by audit committee: all attended committee approved these agendas. The Company's procedures: The board of directors approved these resolutions.		
Aug. 12, 2025 (3 <sup>rd</sup> 2025)	1. To formulate the business report and financial statement for Q2 2025.	-	-
	2. Proposed reappointment of the Company's Head of Internal Audit.	✓	
	Independent director's opinions or objections: None Resolutions by audit committee: all attended committee approved these agendas. The Company's procedures: The board of directors approved these resolutions.		
Nov. 7, 2025 (4 <sup>th</sup> 2025)	1. To formulate the business report and financial statement for Q3 2025. Independent director's opinions or objections: None. Resolutions by audit committee: all attended committee approved these agendas. The Company's procedures: The board of directors approved these resolutions.	-	-

2. For abstention of cases by independent directors due to involvement of related interests, specify the names of independent directors, contents of agenda, reasons for abstention, and situation of voting: nil.
3. State of communications by independent directors with in-house auditing chief and certified public accountant (including major items for communications, such as corporate finance and business status, communications methods, and results):

- (1) State of communications by independent directors with certified public accountants:

The company's auditing committee consists of all the independent directors and certified public accountant is invited to attend its meeting at least once a year, for report on the audited results of the

company's finance and business and possible effect of legal revision on the company's accounting.

- (2) State of communications by independent directors with in-house auditing chief:
- a. Formulation and revision of the company's "internal-control system" and "enforcement rules for internal auditing" is subject to the approval by the auditing committee before being submitted to the board of directors for ratification.
  - b. Evaluation of the effectiveness of the company's internal control system (with production of statement) is subject to the approval by the auditing committee before being submitted to the board of directors for ratification.
  - c. The company's auditing office submits the monthly internal auditing report to independent directors for perusal.
  - d. Independent directors meet with in-house auditing chief at least once a quarter, for report and communications on the execution status of the company's internal auditing and the operation of internal control. In addition to the production of auditing report on flaws of internal control system and abnormal items discovered in inspection, such problems are recorded for follow-up tracking, to assure adoption of proper improvement measures by related units timely.
- (3) Communication matters and operation of Independent directors with accountants and in- house auditing chief.

Date	Occasions	Person	Items	Results
2025.03.07	Audit committee	CPA	Communications and explanation for auditing of 2024 financial statement	Good

(4) Annual work priorities and operational conditions:

1. The Company's Audit Committee is composed of 3 Independent Directors. A total of 4 meetings were held in 2025. The discussion proposals and status of follow-up addressing refer to "1. resolutions of the Audit Committee and the Company's response to the Audit Committee's opinion" and the work highlights are as follows:

- a. Amendments to the Company's "Internal Control System" and "Internal Audit Implementation Rules" pursuant to the Article 14-1 of Securities and Exchange Act.
- b. Assessment of the effectiveness of the internal control system.
- c. Rationality of matters in which a director is an interested party.
- d. Asset transactions of a material nature.
- e. Loans of funds, endorsements, or provision of guarantees of a material nature.
- f. Annual financial reports review.
- g. The offering, issuance, or private placement of any equity-type securities.
- h. The hiring or dismissal of an attesting CPA, or the compensation given thereto.
- i. The appointment or discharge of a financial, accounting, or internal auditing officer
- j. Annual financial reports and second quarter financial reports that must be audited and attested by a CPA, which are signed or sealed by the chairperson, managerial officer, and accounting officer.
- k. Any other material matter so required by the company or the Competent Authority

(5) The Audit Committee will continue to assist the Board of Directors to supervise fair presentation of the financial reports, the hiring (and dismissal), independence, and performance of certificated public accountants, the effective implementation of the internal control system, compliance with relevant laws and regulations, management of the existing or potential risks of the Company in 2026.

Note:

- 1) In case there is any independent director leaving the post by the end of the year, the following information should be entered in the note column, including job expiration date, with attendance rate (%) based on division of the actual number of attendances by the number of committee meetings during his/her service period.
- 2) In case there is reelection for independent directors by the end of the year, information on both original and new directors should be entered in the note column, including the distinction of previous, new, or continuing post of independent directors and the date of reelection, with attendance rate (%) based on division of the actual number of attendances by the number of board meetings during his/her service period.

(C) Operating status of corporate governance and difference from "Corporate Governance Best Practice Principles for TWSE/TPEX Listed Companies" and reason

Evaluation items	Status of operation (note)			Difference from "Corporate Governance Best Practice Principles for TWSE/TPEX Listed Companies" and reasons
	Yes	No	Summarized explanation

G. Information Disclosure	V		meeting can be convened legally, validly and safely and therefore able to protect shareholders' right.	shareholders' meeting.
(1) Does the Company have a corporate website to disclose both financial standings and the status of corporate governance?	V		G.1 The company has established corporate website in both Chinese and English, with website address at www.ftc.com.tw, and disclosed information on finance, business, and corporate governance on "investor section" of the website.	Compliance with articles 57 and 59 of "Corporate Governance Best Practice Principles for TWSE/TPEX Listed Companies"
(2) Does the Company have other information disclosure channels (e.g. building an English website, appointing designated people to handle information collection and disclosure, creating a spokesman system, webcasting investor conferences)?	V	V	G.2 The Company has a spokesperson and a deputy spokesperson. A dedicated person has been appointed in the President Office to collect and disclose Company information, as well as providing the spokespersons and relevant business departments with answers to stakeholders, investors, and authorities.	In compliance with Article 55 paragraph 3 and Article 56 and Article 58 of the Corporate Governance Best Practice Principles for TWSE/TPEX Listed Companies.
(3) Does the Company announce and declare the annual financial report within two months after the end of the fiscal year, and announce and declare the first, second, and third quarter financial reports and the monthly operating situation within the prescribed deadline?			G.3 In principle, the Company announces and declares the operating revenue of the previous month on the 6 <sup>th</sup> of each month (postponed every holiday). The Company also submits and announces financial reports before the deadline in accordance with laws and regulations. Financial Reports of first three quarters of financial year are approved before seven days by the board of directors and declared. Although the verification process of CPA may lead to the delay of announcement of financial report within two months after the end of the fiscal year, the Company still upload and declare the financial report before 75 days after the end of the fiscal year in compliant with "Corporate Governance 3.0 -Sustainable Development Roadmap."	It does not meet the partial requirements of Article 55-2 of the Corporate Governance Best Practice Principles for TWSE/TPEX Listed Companies.
H. Is there any other important information to facilitate a better understanding of the Company's corporate governance practices (e.g. including, but not limited to, employee rights, employee wellness, investor relations, supplier relations, rights of	V		H. People can understand the Company's various corporate-governance operations directly by accessing the Market Observation Post System ( <a href="http://mops.twse.com.tw/">http://mops.twse.com.tw/</a> ) and the special corporate-governance section on the Company's website ( <a href="http://www.ftc.com.tw/newftc/governanceop.php">http://www.ftc.com.tw/newftc/governanceop.php</a> ). Corporate governance -related inquiry can also be made with the Company's spokesperson, chiefs of related units, and the Company's labor union, with other key information described briefly in the following:	In compliance with Articles 52 to Articles 54 of the Corporate Governance Best Practice Principles for TWSE/TPEX Listed Companies.

stakeholders, directors' and supervisors, training records, the implementation of risk management policies and risk evaluation measures, the implementation of customer relations policy, and purchasing, insurance for directors and supervisors).		V	<p>1) Employee rights and interests: The Company strives for harmonious labor relations and values the right of employees to express their opinions. Although a unified collective agreement has not been signed with the Company due to the large number of factories and union members, we have set up physical suggestion boxes in areas frequently accessed by employees, as well as an online suggestion box within our enterprise information system. Each suggestion box is managed by designated personnel who are responsible for reviewing and responding to the suggestions. We have established an internal whistleblower management and protection system to ensure smooth communication of employee feedback, along with an established reporting procedure. Furthermore, we place significant importance on the right to collective bargaining. The Company's labor union regularly holds board meetings and labor-management meetings, which are attended by relevant department heads. All requests and suggestions are reviewed and responded to by the Company, and feedback is communicated with labor representatives. Written requests and suggestions are also periodically reviewed and explained. On major labor-management issues, the Company prioritizes compliance with government regulations and engages in discussions and negotiations with the union at the highest management level. Any agreements reached are incorporated into the review and adjustment process, in line with the Collective Agreement Act, ensuring harmonious labor relations and sustainable business development.</p> <p>2) Care for employees: In order to help employees maintain physical and mental health, the Company appropriates budget for arranging physical examination for employees annually, which covers more than mandatory checkup items. In 2025, prostate-specific antigen (PSA) screening for male employees aged 40 and above and breast cancer screening for female employees aged 40 and above were newly added to the health examination items. The company has maintained employee restaurant, whose operation is subject strict regulations on hygiene and nutrition, covering sources of foodstuff, storage of foodstuff,</p>

			<p>water, edible oil, and cleanness of service staffers and kitchen. In addition, the Company builds dormitories, basketball courts in the leisure life area, etc. to provide employees with a high-quality accommodation environment, and sets up special counseling personnel to hold regularly employee visits and seminars, to better understand the employees' status in adapting company. Colleagues are able to immediately consult and negotiate with the counseling personnel when they face difficulties in work or life. For related measures, please refer to E. Labor-management relationship of Business Status of Chapter IV of the annual report.</p> <p>3) Investor relations : The Company uses the President Office and the shareholding department as a bridge between the Company and its shareholders. In terms of corporate information transparency, the Company's website has an "Investor Relations Section" to provide investors with relevant information. In order to maintain a good relationship with investors, the Company has set up a spokesperson system to provide a means of contact with shareholders and corporate investment institutions, also participating in two online investment forums held by domestic and foreign brokerage firms in 2025.</p> <p>4) Supplier relationship: The company's has set up a mechanism for procurement via open bidding, in order to create a platform for fair competition and seek excellent suppliers capable of providing equipment, materials, engineering works, or services at adequate quality and quantity, so as to meet the needs of various units for expansion or operation.</p> <p>4.1 Open and fair procurement mechanism via open bidding: The company carries out procurement and outsourcing via open bidding, accepting bids from prospective suppliers via the Internet, mail, and fax, with all information is strictly controlled according to the chip card certificate. All bids for procurement projects via open bidding are evaluated according the bidders' management concept of sustainability, ethics and integrity, and optimal quotes, in addition to</p>

			<p>services needed by customers in a quick manner, so as to attain a stable relationship based on honesty and trust for mutual benefits and prosperity.</p> <p>9.1 Forging a stable supply-demand relationship: Given the critical relationship with customers for mutual survival and prosperity, a key task for any enterprise in its quest for sustainable development is to forge a stable supply-demand relationship with customers. With an eye on long-term industrial development and in line with customers' global marketing, the Company has forged a longstanding good cooperative relationship with customers, based on integrity-oriented trading, reasonable pricing, stable supply and demand, realizing mutual benefits and prosperity. With a focus on sustainable long-term development, the Company provides customers with a stable supply of materials while laying a solid foundation for the textile supply chain.</p> <p>9.2 Enhance competitiveness of medium- and downstream customers: Only via sharing of growth benefits with medium- and downstream customers can an enterprise attain sustainable development. The company's R&amp;D center would discuss with medium- and downstream branded customers for formulating a win-win strategy before development of new products, not only facilitating pushing of new products but also augmenting customers' competitiveness.</p> <p>9.3 Resort to e-commerce to cut cost and raise efficiency: In order to raise the efficiency of customer services, the Company has established a corporate website, online customer service system, and online marketing system, enabling customers to access in real time product information, progress of production for orders, inspection report, warehousing and shipment status. Also in place are rear-end systems, including project customer performance evaluation system, forecast and tracking system for customer orders, and product inspection system, so as to enhance the service standard and the extent of customer satisfaction,</p>	

Evaluation items	Status of operation (note)			Difference from "Corporate Governance Best Practice Principles for TWSE/TPEX Listed Companies" and reasons
	Yes	No	Summarized explanation	
			<p>as well as reduce operational errors and cost.</p> <p>9.4 Materialization of K.P.I benefits: In response to the demands of customers, the Company has embraced and actively implemented KPI (key performance indicators) system, including first pass yield rate at one try and punctual delivery rate.</p>	

H. Please explain the improvements which have been made in accordance with the results of the Corporate Governance Evaluation System released by the Corporate Governance Center, Taiwan Stock Exchange, and provide the priority enhancement measures.

1. The Corporate Governance Center of the Taiwan Stock Exchange Co., Ltd. published the results of the seventh annual corporate governance evaluation of 2024. The company is listed in the 21% to 35% of listed companies. The countermeasures for the priority improvement of the Company's un-scored matters in the 11<sup>th</sup> corporate governance evaluation are described below:

Category	Evaluation Indicator	Improvement Status
Improved	Has the Company disclosed the policy to link the remuneration of senior managers with ESG-related performance evaluations?	<ol style="list-style-type: none"> <li>1. The Company meets the basic scoring criteria of the evaluation indicators.</li> <li>2. The policy linking senior executives' compensation to ESG-related performance evaluation has been disclosed in the Annual Report and the Sustainability Report.</li> </ol>
Prioritized Improvement Improved	Has the Company formulated substantial measures to improve corporate value, reported them to the Board, and disclosed the relevant information in the "Corporate Value Improvement Plan Section" on the MOPS?	The Company will formulate specific measures to enhance corporate value and further carry out detailed planning and prudent evaluation, with the aim of continuously strengthening operational performance and increasing overall corporate value.

Note: Whether checking yes or no for operating status, make description in the column of summarized explanation.

(D) Disclosure of information on directors' professional qualifications and independence of independent directors:

1. Information on members of remuneration committee

April 28, 2026

Capacity (Note 1)	Criteria		Independence analysis (Note 3)	Number of other public companies at which the person concurrently serves as remuneration committee member
	Name	Professional qualifications and experience (Note 2)		
Independent Director (Convenor)	Lin, sheng- Chung	Independent Director, Lin, Sheng-Chung, with a wealth of experience and business management, acts as the member of the remuneration committee since June, 2020. For further information of his professional qualification please refer to "Director- Director Data."	Please refer to "Director-Director Data" for further information of independence analysis.	2
Independent Director	Kuo, Nein- Hsiung	Independent Director, Kuo, Nein-Hsiung, with a wealth of industrial knowledge and business management, acts as the member of the remuneration committee since June, 2020. For further information of his professional qualification please refer to "Director- Director Data."		0
Independent Director	Kuo Chia- Chi	Independent Director, Kuo Chia-chi, with a wealth of industrial knowledge and business management, acts as the member of the remuneration committee since June, 2015. For further information of her professional qualification please refer to "Director- Director Data."		1

Note 1: Please state the relevant working experience, professional qualifications, experience, and independence of each member of the Remuneration Committee in the table. Where a member is an independent director, a separate note may be added to refer to relevant information in Attachment One on Page 11~12, "Information on Directors and Supervisors (II)". Please specify a person's identity as an independent director or others in the identity column (please indicate in a note where the person is a convenor).

Note 2: Professional qualifications and experience: please describe individual Remuneration Committee members' professional qualifications and experience.

Note 3: Compliance with independence standards: please state that Remuneration Committee members are in compliance with independence standards, including, but not limited to, whether himself/herself, his/her spouse, and any relative within the second degree of kinship is a director, supervisor, or employee of the Company or its affiliates; the number and proportion of shares held by himself/herself, his/her spouse, and any relative within the second degree of kinship (or in the name of others); whether he/she is a director, supervisor, or employee of a company in a specific relationship with the Company (refer to Article 6-1, paragraph 5 to paragraph 8 of Regulations Governing the Appointment and Exercise of Powers by the Remuneration Committee of a Company Whose Stock is Listed on the Taiwan Stock Exchange or the Taipei Exchange); the amount of remuneration obtained for providing commercial service, legal service, financial service, accounting service, and other services to the Company or its affiliates in last two years.

Note 4: For disclosure methods, please refer to the example of best practices on Corporate Governance Center of Taiwan Stock Exchange website.

## 2. Information on the operation of the remuneration committee

(1) The company's remuneration committee consists of three members.

(2) Term of the members of the current committee: From June 16, 2023 through June 15, 2026, with the qualifications of the members and their attendance in the three meetings (A) in the recent year listed below:

Title	Name	Times of attendance (B)	Times of attendance via proxy	Attendance rate (%) (B/A) (note)	Note
Convener	Lin, Sheng-Chung	3	0	100	Independent Director
Member	Kuo, Nein-Hsiung	3	0	100	Independent Director
Member	Kuo Chia-Chi	3	0	100	Independent Director

### Status of operation:

A. The company's board of directors resolved on Aug. 25, 2011 to set up the remuneration committee.

B. The committee convened three times in 2025.

### Other items mandating record:

A. In case of rejecting or revising the suggestions by the remuneration committee, the board of directors should specify the date of the board meeting, the term of the board, contents of agenda, resolutions of the board meeting, and handling of the opinions of the remuneration committee (should the level of remunerations passed by the board of directors be higher than that suggested by the remuneration committee, the extent of difference and reasons should be specified): nil

B. In case there is any member opposing or having reservation for the resolutions of the remuneration committee, on record or in written form, the committee should specify the date of the meeting, the term of the committee, contents of agenda, opinions of all the members, and handling of the contrarian opinion:

Meeting of Remuneration Committee Date and term	Proposal content, opinions of all members and company processing results
January 3, 2025 (first meeting in 2025)	1. The year-end bonus of 2024 of managers were compared with the standard report of the year-end bonus distribution of all employees, which was calculated according to the Company's "year-end bonus and remuneration distribution method," reviewed by the Remuneration Committee. It is expected to be issued on January 20, 2025. Resolution results of the remuneration committee: Acknowledgement. The Company's treatment of the remuneration committee's opinion: None.
March 7, 2025 (second meeting in 2025)	1. Propose to prepare the 2024 Remuneration of Directors, please make resolution. Resolution results of the remuneration committee: all members present approved and submitted to the board of directors for ratification. The Company's treatment of the remuneration committee's opinion: All the directors present at the meeting of the board of directors approved the proposal, which was submitted to the 2025 Annual Meeting of Shareholders to report.
August 12, 2025 (third meeting in 2025)	1. Propose to discuss the 2025 annual salary of the managers adjusts in line with the all employees' compensation. Resolution results of the remuneration committee: All members present approved the proposal and submitted to the board of directors for ratification. The Company's treatment of the remuneration committee's opinion: All the directors present at the meeting approved the proposal.

### Note:

- In case there is any member of the remuneration committee leaving the post by the end of the year, the following information should be entered in the note column, including job expiration date, with attendance rate (%) based on division of the actual number of attendances by the number of committee meetings during his/her service period.
- In case there is reelection for the remuneration committee by the end of the year, information on both original and new members should be entered in the note column, including the distinction of previous, new, or continuing membership and the date of reelection, with attendance rate (%) based on division of the actual number of attendances by the number of committee meetings during his/her service period.
- The Company's Remuneration Committee consists of three independent directors appointed by the resolution of the Board of Directors. Convener is selected among the members. Term of office is the same as the Board of

Directors. Three meetings were convened in 2020 to set up the remuneration of the current chairman and vice chairman, monthly salary of managers, year-end bonus etc. and submitted to the Board of Directors for ratification.

4. The Company has stipulated the “Organization Regulations of the Remuneration Committee”. The Committee shall perform the following duties faithfully with the care as a good manager, and submit the recommendations to the Board of Directors for discussion:
  - (1) Regularly review this Regulation and propose amendments.
  - (2) Formulate and regularly review the policies, systems, standards and structure of directors and managers' performance evaluation and remuneration.
  - (3) Regularly evaluate and determine the remuneration of directors and managers. °

(E) Attendance of Members at Sustainable Development Committees Meetings:

1. Component and professional qualifications ability of Sustainable Development Committee:

The Sustainable Development Committee of the Company is constituted by five members. Their term of office is from June 16, 2023 to June 15, 2026. Each member of this Committee with the related professional background and experience is as below table:

Title	Name	Professional Background and Experience								
		Industrial Safety	Environment Protection	Circular Economy	Social Participation	Corporate Governance	Legal Compliance	Risk Management	Green finance	R&D and Innovations
Convener	Lee, Ming-Chang	√	√	√	√	√	√	√	√	√
Member	Lee, Chien-Kuan	√	√	√	√	√	√	√	√	√
Member	Lin, Sheng-Chung	√	√	√	√	√	√	√	√	√
Member	Kuo, Nein-Hsiung	√	√	√	√	√	√	√	√	√
Member	Kuo, Chia-Chi			√	√	√	√	√	√	√

2. Sustainable Development Committee Meeting Status

(1) Duty of Sustainable Development Committee

- I. Reviewing the sustainable development policies, strategies, and managerial rules of the Company.
- II. Supervising the matters of sustainable development promotion and implementation cases.
- III. Reviewing the material sustainable development information including ESG report and reporting to the board of directors.
- IV. Supervising the greenhouse gas inventory and verification plans.
- V. Supervising the Company to care the material issues concerned by stockholders, employees, customers, community, and government.
- VI. Other matters instructed by the resolution of the board of directors.

(2) A total of 2 (A) Remuneration Committee meetings were held in the previous period, the attendance record was as follows:

Title	Name	Times of attendance (B)	Times of attendance via proxy	Attendance rate (%) (B/A) (note 1 and 2)	Note
Convener	Lee, Ming-Chang	2	0	100	director
Member	Lee, Chien-Kuan	2	0	100	director
Member	Lin, Sheng-Chung	2	0	100	independent director
Member	Kuo, Nein-Hsiung	2	0	100	independent director
Member	Kuo, Chia-Chi	2	0	100	independent director

Note 1: If there is a sustainable development committee member leaving the company before the end of the year, the date of departure should be indicated in the note column. The actual attendance rate (%) is

calculated based on the number of meetings of the sustainable development committee during the term of office and their actual attendance.

Note 2: Before the end of the year, if there are reelected sustainable development committee member, the new and outgoing members should be filled in, and the note should indicate that the members are new or outgoing, and reelection date. The actual attendance rate (%) is calculated based on the number of meetings of the sustainable development committee during the term of office and their actual attendance.

- (3) In case there is any member opposing or having reservation for the resolutions of the sustainable development committee, on record or in written form, the committee should specify the date of the meeting, the term of the committee, contents of agenda, opinions of all the members, and handling of the contrarian opinion:

Sustainable Development committee Date & Sessions	Agenda, Procedures and Resolution
2025.06.19 (1 <sup>st</sup> , 2025)	1. Proposal: To formulate 2024 Sustainability report. <ul style="list-style-type: none"> <li>• Sustainable Development Committee Resolution: The above proposal was approved by all attendants and submitted to the Board of Directors for report.</li> <li>• Resolved by the Board of Directors, with all attending directors unanimously approving the proposal.</li> </ul>
2025.12.12(2 <sup>nd</sup> ,2025)	1. Proposal: To amend the Company’s “Sustainability Development Code.” <ul style="list-style-type: none"> <li>• Sustainable Development Committee Resolution: The above proposal was approved by all attendants and submitted to the Board of Directors for report.</li> <li>• Resolved by the Board of Directors, with all attending directors unanimously approving the proposal.</li> </ul>

(F) Fulfillment of Social Responsibilities and Deviations from the “Corporate Social Responsibility Best Practice Principles for TWSE/TPEX Listed Companies” :

Evaluation Item	Implementation Status (Note1)			Deviations from the Corporate Sustainable Development Best Practice Principles for TWSE/GTSM Listed Companies and Reasons
	Yes	No	Summary(Note2)	
1. Does the Company establish a governance structure to promote sustainable development as well as an exclusively (or concurrently) dedicated unit to implement sustainable development and have management appointed by the Board of Directors to be in charge of sustainable development and to report the implementation status to the Board of Directors?	V		<p>1.1 The president of the Company, Lee, Ming-Chang, serves as the general convener and the executive vice presidents, Lee, Chien-Kuan, Cheng, Hung-Ning, and Wu, Li-Jen as vice conveners. President Office, safety and health department, accounting department, and other units form “The Sustainability Committee” which is dedicated to the implementation of ESG and a meeting is held each month to report the operation of each project to the President.</p> <p>1.2 Uphold the philosophy of "giving back what is taken from the society," the Company dedicates to the sustainable development in the aspect of “Environment Protection,” “Social Responsibility,” and “Corporate Governance,” as well as set up key performance indicators for the three aspects and keep improving.</p> <p>1.3 The Company assesses the risk of environmental, social, and governance issues based on the influences on the stakeholders, and establish effective risk management policy to avoid and reduce the loss.</p> <p>1.4 Additionally, the Board approved to set up the Sustainable Development Committee on May 6, 2022 to strengthen the implementation of the supervision mechanism for promoting sustainable development. In 2025, a total of 2 meeting was held, the contents of this meeting included that (1) the sustainable policy, promotion status, goal, and the guidelines, (2) risk management and the opportunities and risks from the climate change, (3)GHG emissions, energy management, information security, supply chain management, the operation of business integrity, and the status of communication with stakeholders, (4) sustainability report assured by the third party and followed by reviewed by the Committee on June 19. The operation for promoting the sustainable development goals was reported to the Board on June 20, 2025.</p>	In compliance with the Article 9 of the Corporate Social Responsibility Best Practice Principles for TWSE/GTSM Listed Companies.

			<p>compared to the 2020 base year.</p> <p>In 2025, the Company was rated as A in Water Security by CDP. To avoid lapsing into water shortage situations and increasing water costs, water conservation has become a critical theme in sustainability. Taiwan Plant has introduced ISO 46001, water management system to improve the efficacy of water management. In addition, the water footprint of Taiwan plant was verified in accordance with ISO 14046 by SGS Taiwan Limited. The amount of water consumption in 2025 was 6.16 million tons (scheduled to be verified in the second half of 2025), which was increased by 3.87% compared with the previous year- 5.93 million tons (verified). Additionally, the Company continues to implement water saving projects and improve the manufacturing equipment to increase the water usage rate and to save water consumption. In 2025, the amount of water saving from those projects was 20,200 tons, decreased by 3.8% compared with the previous year-21,000 tons. Moreover, the Company dedicates to water recycling and reusing, using the recycled water in the weaving plant for production. In 2023, the water recycling rate for weaving plants was 72.0%, ; in 2024, it rose to 81.16%; and in 2025, it reached 76.23%, successfully achieving the target of 70%.</p> <p>4.4 Policy on waste reduction: The Company dedicates to reducing environmental impacts through strengthening waste management measures, continuing reducing energy (resource) consumption during the production, improving the recycling rate of energy/resource, prioritizing purchasing and developing eco-friendly products and technology.</p> <p>(1).The status of waste reduction : <span style="float: right;">Unit : tons</span></p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th>Year</th> <th>2024</th> <th>2025</th> <th>Difference</th> <th>Variance Rate</th> </tr> </thead> <tbody> <tr> <td>Industrial waste</td> <td style="text-align: center;">3,992</td> <td style="text-align: center;">4,174</td> <td style="text-align: center;">-182</td> <td style="text-align: center;">-4.55%</td> </tr> </tbody> </table>	Year	2024	2025	Difference	Variance Rate	Industrial waste	3,992	4,174	-182	-4.55%

	Yes	No	Summary(Note2)	
(6)Has the company established supplier management policy and require suppliers to comply with relevant standards on environmental protection, occupational safety and health, or labor and human rights issues?	V		6.1 The Company strictly requires raw material suppliers to comply with Oeko Tex Standard 100, Substances of Very High Concern (SVHC), no organic tin component guarantee, no APEOs component guarantee, ZDHC restricted chemical content questionnaire declaration, and dangerous goods transportation must meet standard conditions such as national regulations on safe transportation. It is clearly stipulated in the terms of the procurement contract that suppliers are required to comply with the regulations. The principle of sustainable management shall be clearly stated in the "Inquiry Form" and "Order Notice" to abide by the fair trading principle. Suppliers are required to follow the principles of environmental protection, occupational safety and human rights. Unqualified products and materials shall be rejected and shall be included in the supplier's evaluation and review. Suppliers with serious violation shall be banned from cooperation. For details of supplier management practices, please refer to the Company's "2025 Sustainability Report.	In compliance with Article 26 of the Corporate Social Responsibility Best Practice Principles for TWSE/GTSM Listed Companies.
5.Does the company refer to guidelines for the preparation of internationally accepted reports and prepare corporate social responsibility reports and other reports that disclose the company's non-financial information? Has the aforementioned statement received any validation or guarantee from third-party accreditation/attestation organization?	V		The content structure of the Company's 2025 Corporate Sustainability Report is based on the Global Resiliency Reporting Association's GRI standards guidelines, written in accordance with the guidelines and framework outlined in the Core Options, and exposes the Company's main sustainability issues, strategies, goals and objectives, as well as measures. The Company have been inspected by a third party certifying authority, SGS, in accordance with the GRI Standards 2021/AA1000 ASv3 Type 1, and was awarded the certificate of credibility.	In compliance with Article 29 of the Corporate Social Responsibility Best Practice Principles for TWSE/GTSM Listed Companies.
6. Where the Company has established its own Best Practices on sustainable development according to the Corporate Sustainable Development Best Practice Principles for TWSE/TPEX Listed Companies, please describe any differences between the prescribed best practices and actual implementations taken by the Company : Note : The Company passed the resolution of the "Corporate Social Responsibility Code" as set out in the resolution of the Board of Directors on August 7, 2015. On May 6,				

Evaluation Item	Implementation Status (Note1)			Deviations from the Corporate Sustainable Development Best Practice Principles for TWSE/GTSM Listed Companies and Reasons
	Yes	No	Summary(Note2)	
<p>2022, the board of directors approved to rename “Corporate Social Responsibility Code” as “Sustainability Development Principles.” Although the Company's practice has been slightly revised, the established code and the “the Corporate Social Responsibility Best Practice Principles for TWSE/GTSM Listed Companies” comply with the same spirit. For the operation of the Company's Sustainability, please refer to the 2025 Sustainability Report and website.</p>				
<p>7. Other important and helpful information in understanding sustainable development operation :</p> <p>(Explanation 1) Relevant systems and structures:</p> <p>The Corporate Social Responsibility Committee was founded on March 6, 2015, constituting with the functional teams of president’s office. In January, 2022, the committee was reshuffled and renamed as “Sustainability Committee” to drive the sustainability commitment. The business content includes three aspects: environmental protection (E), social responsibility (S), and corporate governance (G). Among them, the environmental protection (E) aspect is subdivided into 8 important topics: 1. Climate-related financial disclosure 2. Circular economy - energy (resource) efficiency improvement 3. Circular economy - plastic recycling 4. Integration of international carbon reduction initiatives 5. Safety and green procurement (including transportation and packaging) 6. Renewable energy and green energy 7. Green product research and development and promotion of the green industry. The president, Lee Ming-chang, serves as the general convener, in responsible for strategy formulation, goal planning, performance monitoring and management policy about the Company’s ESG. President Office, safety and health department, accounting department, and other units form “The ESG Unit to be responsible for corporate governance, work safety and environmental sustainability, water and energy saving, product and customer service, supplier and contractor management, happy workplace, good neighbors and other related work. The president holds regular meeting every month to review the operation of ESG of the Company. In line with the order from Financial Supervisory Commission and the policy, the committee was approved to be governed by the board of directors by the BoD meeting on May 6, 2022. The committee regularly report the strategy and the execution to the Board. The Committee is constituted with five directors (three independent directors and two directors, Lee, Ming-Chang and Lee, Chien Kuan), and director, Lee, Ming-Chang, acts as the convener of the Committee.</p> <p>(Explanation 2) Social welfare engagement of the enterprise</p> <p>1. The system, measures, and performance of environmental protection, safety, and health :</p> <p>It is a company's social responsibility to assure the safety of products, employees, contractors, factory premises, and community, which has become an essential element in corporate competitiveness.</p> <p>We believe any disaster and accident, big or small, is avoidable. Adhering to high-standard universal values, the Company utilizes the power of organization and system to attain its objective, asking all unit chiefs to understand and take part in the initiative, providing promotion and education/training, and demanding faithful execution of system, and seeking constant improvement in performance figures.</p> <p>2. A. The company has installed at factory premises detection and analytical instrument for the quality and quantity of discharged waste water, with upgrading of information on screen once every 15 seconds. The instrument is linked to the municipal environmental protection bureau for inspection, for joint prevention of water pollution. The company has also implemented by its own various energy-conservation and waste abatement measures, green procurement, resources recycling, employment of non-toxic chemicals, and decrease of packaging materials, in a continuing effort in materializing the vision of green factory.</p>

	Yes	No	Summary(Note2)																									
<p>B. Voluntary energy saving and carbon reduction: The Company has long devoted itself to promoting energy saving and carbon reduction campaigns. Over the past five years, the Company was awarded as the best enterprise to voluntarily save energy and reduce carbon emissions.</p> <p>C. CDP carbon disclosure: In 2025, based on the responses to CDP's questionnaires, what FTC received are as follows:</p> <p>(1) Climate Change: FTC has rated "A," the highest honor for consecutive four years, and higher than Textiles &amp; fabric goods sector average of "C."</p> <p>(2) Water security: FTC has rated "A-(leadership) for consecutive four years and achieved an "A" rating in 2025.</p> <p>D. The Company has officially approved by the SBTi (Science Based Targets initiative, SBTi), becoming the first Textile company in Taiwan to be validated. The Company continues to track on climate issues and manage the performance to make efforts in combating climate change.</p> <p>3. Employ cutting-edge and energy conserving equipment in priority, either for new installation or replacement purpose. Throughout the company's factory premises, including whole set of machinery and facilities and small items such as lights and faucets, the Company has adhered to the practices of energy conservation, consumption reduction, emission reduction, recycling, circular or repetitive use, toxin-free, and degradability. The company has strived to have all machinery equipment in factory to function and stop at the same time, so as to attain energy conservation and cut consumption via concentrated production, leading to cost reduction and environmental improvement in long run. In 2025, the amount of green procurement amounted to NT\$461,702.</p> <p>4. In an effort to environment protection, the Company provides the subsidies of NT\$ 16,000 to the staff for purchasing new electric scooters and NT\$10,000 to those who change the old scooters to electric scooters. In 2024, the Company subsidized employees for purchasing 3 new electric scooters and changing 0 new electric scooters, amounting NT\$48,000.</p> <p>5. To install solar power generator:</p> <p>(1) The annual power generation from solar power system is scheduled to be 7,280,000 KWH followed by the completion of installation of solar power system in Taiwan, China, and Vietnam plants. It is estimated to reduce 36,000 tons of CO<sub>2</sub> emissions per year.</p> <p>(2) The status of installing solar power system:</p> <table border="1"> <thead> <tr> <th>Plant</th> <th>Taiwan</th> <th>Zhong-Shan</th> <th>Chang-shu</th> <th>Tay-ninh</th> <th>Dong-nai</th> </tr> </thead> <tbody> <tr> <td>Capacity</td> <td>2.6MWp +22.32MWp</td> <td>4.46MWp</td> <td>1.56MWp</td> <td>10.1MWp</td> <td>13.3MWp</td> </tr> <tr> <td>Completed Date</td> <td>2021.12、2025/05</td> <td>March, 2024</td> <td>April, 2022</td> <td>September, 2018, March, 2021</td> <td>November,2025</td> </tr> <tr> <td>Annual Power Generation (KWH)</td> <td>30,140,000</td> <td>4,660,000</td> <td>1,620,000</td> <td>1,570,000</td> <td>20,680,000</td> </tr> </tbody> </table>					Plant	Taiwan	Zhong-Shan	Chang-shu	Tay-ninh	Dong-nai	Capacity	2.6MWp +22.32MWp	4.46MWp	1.56MWp	10.1MWp	13.3MWp	Completed Date	2021.12、2025/05	March, 2024	April, 2022	September, 2018, March, 2021	November,2025	Annual Power Generation (KWH)	30,140,000	4,660,000	1,620,000	1,570,000	20,680,000

	Yes	No	Summary(Note2)							
<p>neighboring communities, such as communal cleaning, manifesting human care and love and contributing to formation of a harmonious community. In 2025, the Company took 7,632 hours for the road cleanup near the Douliu Plant, and the amount of the annual reduced particulate and dust is estimated to be 5.2 tons.</p>										
<p>7. System and measures for social contribution, social service, and social benefits and status of implementation: In line with the spirit of "diligence and down-to-earth style," the Company has been pushing the management concept of "harmony, innovation, service, and dedication," as embodied in honest tax payment, high regard for environment protection and industrial safe, and care for employees, so as to uphold the company's corporate image and repute, give back to the society, and fulfill corporate social responsibilities.</p>										
<p>8. All employees must constantly improve their specialties and take into account safety, hygiene, and environmental protection in any decision, thoroughly understand the spirit of system for faithful implementation, tackle root causes for problems, embrace SOP of international brands, and safeguard safety of oneself, colleagues, and neighbors, uphold natural environment, and protection corporate assets. Adhering to the concept of "co-existence of industrial development and environmental protection," the Company believes that fulfillment of social responsibility is critical for sustainable development.</p>										
<p>9. When the staff or their spouses are pregnant or childbirth, the Company provide the gifts and various subsidiaries for child care. The Company provides NT\$10,000 for a new born baby, and since the birth, the Company provide NT\$1,000 for child care until they reach to six-year old. In 2025, subsidies were provided to 163 individuals, totaling NT\$1,827,000.</p>										
<p>10. The company has been continuously caring for the society, assisting the underprivileged, and taking part in public services, in the fields of education, industry, academia, and society:</p>										
<p>a. Education: For decades, the Company has run kindergarten to accommodate children of employees and neighboring residents. In cultivating the talents in the textile industry, the Company collaborated with Da Der Commercial and Technical Vocational School to help students study and work. Additionally, the Company collaborates with National Formosa University, providing the intern opportunities. In 2025, the Company collaborated with National Formosa University, providing the intern opportunities for ten students.</p>										
<p>b. The company supports 20 employee clubs dedicated to healthful and social-benefits activities.</p>										
<p>c. To promote the local culture, the Company supported the following events:</p>										
<p>(1) In collaboration with Formosa Plastics Group to help "Ming Hwa Yuan Arts &amp; Cultural Group." "I Wan Jan Puppet Theater," "If Kids Theater," and "Apple Theater" to hold the performance.24 shows were launched to provide a stage for theaters and backcountry to promote local cultural as well as sustainable development of theaters.</p>										
<p>d. Other social-benefits activities: continuously pushing and sponsoring various social-benefits activities, such as:</p>										
<p>(1) Giving back to Local Communities – Participation in Social Charitable Events</p>

6			Sponsoring other environmental protection activities and events in neighboring communities	2
<p>(2) The Petroleum Business Division of the Company held the 27<sup>th</sup> anniversary charity activity, donating to 8 charity organizations.</p> <p>(3) The Company's clubs irregularly hold activities for blood donation to help the society and more people in need.</p> <p>(4) Sponsorship for charitable activities in neighboring communities of overseas factory premises.</p> <p>In addition to fully cooperating with the Environment Protection Administration to promote green procurement in private sectors to implement energy-saving, carbon-reducing and green consumption policies, the Company also actively requests suppliers to increase the number of products certified by Bluesign year-on-year. In the future, we will continue to implement various related businesses such as water conservation, energy conservation and carbon reduction, sustainable utilization of resources, and friendly environment, aligning with the concepts of environmental protection and economic development, and fulfilling our social responsibilities. In addition, a healthy and safe working environment has always been the goal of our efforts, and it is also the Company's responsibility to employees and their families. Requiring employees to pay attention to "safety first" when entering the workplace is an important principle that demonstrates our focus on employees; The Company encourages employees and contractors to propose improvements and suggestions for unsafe operating environment, and we use the shift time to strengthen the precautions for the promotion of operational safety, and appropriately reward the zero-work disaster department.</p>				

Note 1.If Implementation Status is specified "Yes", please explain the key policies, strategies and measures taken and the current progress. If Implementation Status is specified "No", please refer to "The discrepancies in the Code of Practice of Sustainable Development for the TWSE/TPEX Listed Companies" section to explain the situation and reasons for the discrepancies, as well as explain any policy, strategy and measure planned for the future.

## Climat-related Information of TWSE/TPEX Listed Companies

### 1. Implementation Status of Climate-related Information

Item	Implementation Status																												
<p>1. Describe the board of directors' and management's oversight and governance of climate-related risks and opportunities.</p>	<p>1.1 The Board of Directors of the Company is the highest governance body for climate-related risks and opportunities. Climate change has growing significant impacts on business operation; therefore, the knowledge of sustainable development becomes a key factor for constitution of the Board members. While electing the independent directors, the experience and skills related to climate change issues are also considered in addition to business operation, financial management, accounting, law, corporate governance, and other capabilities.</p> <p>1.2 The Company established a "Sustainable Development Committee" under the Board of Directors in May 2022, which is responsible for reviewing sustainable development policies, strategies, and management guidelines. Additionally, the Committee supervises the Company's promotion of initiatives and implementation plans in response to climate change and regularly reports to the Board of Directors.</p> <p>1.3 Since 2021, the President holds ESG meeting once every month to review the Company's sustainable policy and strategy and the implementation status. Besides, the Company has set up different functional groups to promote the projects in the aspect of Environmental, Social, and Corporate Governance, reported to the President in ESG meeting per month. Sustainability Report is reviewed by the Sustainable Development Committee and reported to the Board. The Company also connects the evaluation items of the management with the achievement of the Company's ESG goals, encouraging departments, staff and supervisors to reach the goal of sustainable development while pursuing profits of the Company.</p>																												
<p>2. Describe how the identified climate risks and opportunities affect the business, strategy, and finances of the business (short, medium, and long term).</p>	<p>2.1. The Company identified 12 risks and 6 opportunities with reference to TCFD recommendation; additionally, the Company also establishes the countermeasures and strategy according to its impact time and scale. The analysis of climate risks and opportunities were as follows:</p> <p>A.12 Risks:</p> <table border="1" data-bbox="526 890 2112 1364"> <thead> <tr> <th data-bbox="526 890 660 938">Impact Time</th> <th colspan="2" data-bbox="660 890 958 938">Risk Type</th> <th data-bbox="958 890 1265 938">Climate-related Issues</th> <th data-bbox="1265 890 1774 938">Potential Financial Risk</th> <th data-bbox="1774 890 2112 938">Measures</th> </tr> </thead> <tbody> <tr> <td data-bbox="526 938 660 1165">Short-term</td> <td data-bbox="660 938 828 1295" rowspan="3">Transformation Risk</td> <td data-bbox="828 938 958 1295" rowspan="3">Policy and legal</td> <td data-bbox="958 938 1265 1165">Renewable energy regulations Climate Change Response Act Regulations on the Water Conservation Charge</td> <td data-bbox="1265 938 1774 1165"> <ul style="list-style-type: none"> <li>Compliance-related expenditure (carbon fee/ water conservation charge)</li> <li>Assuming that the carbon fee is calculated NT\$ 100/ton, the estimated carbon fee in 2025 was NT\$1,220,000. Item	Implementation Status					
				technologies	AI-assisted production procedures are unstable and produce low yields in the early stage of implementation; the additional raw material and energy input raises operating costs.	Adopt rigorous tests and standardized processes for quality improvement
	Mid-term		Market	Environmental and low carbon products	Loss of revenues due to inability to satisfy customers' needs.	Research and development of environment-friendly and recyclable products and low-carbon production procedures
	Current			Volatility of international fossil fuel prices	The rising cost of fossil fuels such as coal and natural gas increases operating costs.	<ul style="list-style-type: none"> <li>• Make ongoing improvements to energy efficiency</li> <li>• Reduce dependency on fossil fuel</li> <li>• Continue searching for opportunities to implement renewable energy sources (solar power)</li> </ul>
	Mid-term			Price hike from raw material suppliers	The rising cost of raw materials will decrease the profitability of the Company	<ul style="list-style-type: none"> <li>• Engage suppliers in long-term contracts to reduce risks</li> <li>• Adopt diversified supply of raw materials</li> </ul>
	Mid-term		Reputation	Reputation risk of petrochemical materials/products	Brand customers have transitioned towards environment-friendly/recyclable products, causing a reduction in revenues.	Continue investment into the R&D of smart/environment-friendly products (without petrochemical materials).
	Short-term	Physical Risk	Acute	Flood from acute weather events (e.g.: heavy precipitation, cyclone)	<ul style="list-style-type: none"> <li>• Flooding of the plant premise would damage equipment, affect production activities, and give rise to additional capital expenditure.</li> <li>• Affects safety of employees' commute</li> <li>• Flooding of the plant premise causes an overflow in the water treatment pool, loss of reputation, and loss of customers' orders.</li> </ul>	<ul style="list-style-type: none"> <li>• Adopt enhanced emergency response measures</li> <li>• Regular inspection/cleanup of the drainage system</li> <li>• Alternative water source project</li> <li>• Purchase omnibus insurance coverage</li> </ul>
				Power disruption from acute weather events	May cause damage to production equipment, incur additional capital expenditure, and affect product delivery.	
	Mid-term		Chronic	Drought (increase in the number of consecutive dry days)	Affects product delivery; increases the risk of contract breach and penalties.	<ul style="list-style-type: none"> <li>• Continue investment into water recycling solutions</li> <li>• Alternative water source project (Hushan Reservoir)</li> </ul>
	Long-term			Rise in average temperature	<ul style="list-style-type: none"> <li>• Reduced sale/demand for thermal products causes a reduction in the Company's revenues and profits.</li> </ul>	Research and develop cooling/temperature-regulating products to increase revenues
					<ul style="list-style-type: none"> <li>• Increased use of air conditioning gives rise to additional operating costs.</li> </ul>	Make ongoing improvements to energy efficiency (ISO 50001 - energy management system)

Item	Implementation Status				
	<b>B. 6 Opportunities</b>				
	Impact Time	Opportunity Type	Climate-related Issues	Potential Financial Opportunity	Measures
	Current	Resource efficiency	AI project for factories	Reduce the cost of power, water, and raw materials.	Combine big data and AI to increase the first-time success rate of the dyeing process
			ISO 50001 - energy management solution	<ul style="list-style-type: none"> <li>• Reduce operating costs of power</li> <li>• Reduce uncertainties associated with greenhouse gas-related regulations.</li> </ul>	Capitalize on the energy conservation opportunities identified through ISO 50001, and monitor progress through the energy conservation meetings held by Formosa Chemicals & Fibre.
			Water recycling system	Improve sustainability reputation, strengthen customers' trust, and increase potential revenues from sales orders	Invest in a wastewater recycling system and increase the percentage of water recycled to minimize dependency on water
	Current	Market	Opportunity to switch out fossil fuel	<ul style="list-style-type: none"> <li>• Reduce uncertainties associated with greenhouse gas-related regulations.</li> <li>• Reduce the Company's carbon emission volume</li> </ul>	Redesign existing fuel oil heaters and transition towards low-carbon fuel (natural gas) for lower carbon emission.
	Short-term	Products and services	Eco-friendly and low-carbon products	<ul style="list-style-type: none"> <li>• Increase product sales in line with market trends and needs of brand customers.</li> <li>• Reduce product carbon emission during the product use stage, and improve environmental performance.</li> </ul>	Continue collaboration with foreign companies to make use of recyclable materials; invest resources into the research and development of functional and smart solutions.
Current	Resilience	Alternative raw materials	Reduce fossil fuel dependency on tote bags	Increase biomass content by 20% from 30% to 50%.	
3. Describe the financial impact of extreme weather events and transformative actions.	<p>3.1 Extreme Weather Event:</p> <p>A. If extreme and acute weather events (such as heavy precipitation or typhoon) happen, the flooding in the plants may damage the equipment and affect manufacturing process, and further, increase the expenditures on fixing the equipment.</p> <p>B. If power disruption happens, it may cause damage to production equipment, incur additional capital expenditure, and affect product delivery.</p> <p>C. The disruption of manufacturing process from drought may affect the sales.</p> <p>D. The rise in average temperature may reduced sales/orders for thermal products, reducing the sales and profits.</p> <p>3.2 Transition Action: In line with the trend of carbon reduction, the Company continues to develop environmental-friendly products to increase the sales such as eco-friendly fabrics (recycled material, biomass material, and recycled polyester and polyamide from the ocean waste), and eco-friendly tire cord made of nylon ocean recycled yarn, with twisting, weaving and dipping processes, as reinforcements or anti-puncture layer for bicycle tire. It is expected to increase the sales due to the growing environmental awareness.</p> <p>3.3 To well manage the risks from extreme weather and the low-carbon transition, the Company takes these risks into the operating decisions, identify and manage them. Additionally, the Company reviews the crisis of global warming and resource depletion and strives to implement the measures in response to the trend of energy saving and carbon reduction.</p>				

Item	Implementation Status								
<p>4. Describe how climate risk identification, assessment, and management processes are integrated into the overall risk management system.</p>	<p>4.1 The Company has established a well organization structure, policy and guidelines for risk management. The scope of risk covers business risk, legal and compliance risk, and environmental risk (including climate change); the aspects includes environmental protection, social responsibility, and corporate governance. The environmental risk (including climate change) has been intergrated into the Company’s Risk Management Policy, indicating that the Company considers the climate change as strategic business risks, and identifying, assessing, and managing climate-related risks are intergrated into risk management process.</p> <p>4.2 Risk management is conducted taking the "Operational Division: President's Office" as center. Risks that may affect the Company's operations are identified and, based on the nature of the risks, the likelihood and impact are jointly assessed by collaboration of different business-related units. After assessment, timely feedback is provided to the management to adjust the Company's operational strategies.</p> <table border="1" data-bbox="548 518 2101 826"> <tbody> <tr> <td data-bbox="548 518 831 595">Risk Identification</td> <td data-bbox="831 518 2101 595"> <ul style="list-style-type: none"> <li>Identify the climate risks and opportunities according to the nature of business on a yearly basis.</li> <li>Refer the climate risk reports issued by the internation institutions.</li> </ul> </td> </tr> <tr> <td data-bbox="548 595 831 671">Risk assessment</td> <td data-bbox="831 595 2101 671"> <ul style="list-style-type: none"> <li>Assess the level of impact and influence based on the nature of business.</li> <li>Scope of assessment, including the impact pathway, timeline, areas, value chain, and financial impact.</li> </ul> </td> </tr> <tr> <td data-bbox="548 671 831 748">Risk monitoring</td> <td data-bbox="831 671 2101 748"> <ul style="list-style-type: none"> <li>Intergrate the industrial environmental, social, and corporate governance risk factors into evaluation system.</li> <li>Monitor the climate risk indicators and manage the loss from the climate risks.</li> </ul> </td> </tr> <tr> <td data-bbox="548 748 831 826">Risk reporting</td> <td data-bbox="831 748 2101 826"> <ul style="list-style-type: none"> <li>Regularly report the performance and risk indicators to the Board.</li> <li>Irregularly report the risks related to climate change to the Management and independent directors.</li> </ul> </td> </tr> </tbody> </table>	Risk Identification	<ul style="list-style-type: none"> <li>Identify the climate risks and opportunities according to the nature of business on a yearly basis.</li> <li>Refer the climate risk reports issued by the internation institutions.</li> </ul>	Risk assessment	<ul style="list-style-type: none"> <li>Assess the level of impact and influence based on the nature of business.</li> <li>Scope of assessment, including the impact pathway, timeline, areas, value chain, and financial impact.</li> </ul>	Risk monitoring	<ul style="list-style-type: none"> <li>Intergrate the industrial environmental, social, and corporate governance risk factors into evaluation system.</li> <li>Monitor the climate risk indicators and manage the loss from the climate risks.</li> </ul>	Risk reporting	<ul style="list-style-type: none"> <li>Regularly report the performance and risk indicators to the Board.</li> <li>Irregularly report the risks related to climate change to the Management and independent directors.</li> </ul>
Risk Identification	<ul style="list-style-type: none"> <li>Identify the climate risks and opportunities according to the nature of business on a yearly basis.</li> <li>Refer the climate risk reports issued by the internation institutions.</li> </ul>								
Risk assessment	<ul style="list-style-type: none"> <li>Assess the level of impact and influence based on the nature of business.</li> <li>Scope of assessment, including the impact pathway, timeline, areas, value chain, and financial impact.</li> </ul>								
Risk monitoring	<ul style="list-style-type: none"> <li>Intergrate the industrial environmental, social, and corporate governance risk factors into evaluation system.</li> <li>Monitor the climate risk indicators and manage the loss from the climate risks.</li> </ul>								
Risk reporting	<ul style="list-style-type: none"> <li>Regularly report the performance and risk indicators to the Board.</li> <li>Irregularly report the risks related to climate change to the Management and independent directors.</li> </ul>								
<p>5. If scenario analysis is used to assess resilience to climate change risks, the scenarios, parameters, assumptions, analysis factors and major financial impacts used should be described.</p>	<p>5.1 The Company has incorporated the identification of climate-related risks and opportunities into ISO14001 procedures to more effectively integrate management practices. The Company performs risk assessments on internal and external environmental issues each year. These assessments are jointly performed by the R&amp;D Department, Energy Management Department, Safety &amp; Hygiene Department, and Sustainable Development Department, during which they would review and evaluate the relevance of various issues on the Company's business risks and significance of risks from different perspectives.</p> <p>5.2 With respect to the assessment methodology, the Company follows the Recommendations of the Task Force on Climate-related Financial Disclosures (June 2017) and mainly takes into consideration transformation risks (Policy and Law/Market/Technology/Reputation) and physical risks (chronic and acute) to perform risk scenario analysis, The financial impacts that amount to more than NT\$20 million (i.e. material financial impacts) are classified as enterprise-level risk.</p> <p>5.3 For events that the Company considers to be of major risk, corresponding management plan must be generated to reduce the loss caused by the risk. The Company analyzes all available management solutions and perform indicator settings, classified into risk elimination, risk mitigation and risk diversification. In addition, the final plan for implementation is determined through a meeting. All management solutions have to be monitored regularly or incorporated into the environmental management system (ISO 14001), and thereby integrated into the Company's risk management practices. Additionally, with reference to TCFD recommendations, the Company employed three different scenarios to analyze the financial impacts.</p> <p>A. INDC scenario:</p>								

Item	Implementation Status								
	<p>(1) The nation has set its medium-term goal to reduce greenhouse gas emissions by 20% (compare to 2005), or down to 214 million tonnes, by 2030. Using this scenario, we evaluated how different strategies undertaken by the nation's 7 major sectors, including energy, industry, residential housing, service, transportation, agriculture, and waste, are likely to impact the Company.</p> <p>(2) By simulating the BAU scenario, total greenhouse gas emission is expected to increase to 428 million tonnes by 2030. However, the INDC's goal is 215 million tonnes by 2030, and the nation's energy policy at that time forgoes the use of nuclear power.</p> <p>(3) Due to the fact that Taiwan Power Company (TPC) has not announced any forecast or plan on electricity prices for 2030, we have made our own estimates using TPC's publicly available information, including the unit price of electricity and volume of electricity sold for various energy types. If renewable energy accounts for a higher percentage of Taiwan's power supply, from 4.9% in 2018 to 40% by 2030, as planned in the national energy policy, TPC may raise electricity prices by 50% due to the higher cost of renewable energy. This was the basis of how we evaluated the impact of a rise in energy cost under the INDC scenario. As per evaluation, the Company's operating costs would rise by only 0.6%.</p> <p><b>B. Well-below 2°C (transition scenario):</b> The Company uses the standards published by SBTi to analyze transition risks under the Well-below 2°C scenario. The scenario assumes a 2.5% reduction in carbon emission per year, and the costs it takes to achieve the Well-below 2°C by 2027 would translate into a 1.4% increase in operating costs for the Company as the financial impact to the Company, if the green power is adopted as the primary strategy.</p> <p><b>C. RCP (physical risk scenario):</b></p> <p>(1) For the RCP scenario, we used Taiwan Climate Change Projection Information and Adaptation Knowledge Platform (TCCIP) to perform online simulations for RCP2.6, RCP4.5, RCP6.0, and RCP8.5 (each representing a different concentration level) and establish an understanding of the worst results that can happen.</p> <p>(2) With respect to the changes in temperature and rainfall, the scenario for the most significant change in temperature is RCP8.5, which will increase by 2.6°C from 2041 to 2060, thus increasing the power consumption of air conditioners; however, air conditioners do not constitute the Company's main energy consumption activity.</p> <p>(3) The scenario for the most significant increase in total rainfall is RCP8.5 between 2041 and 2060, in which the daily rainfall increases by 1.95mm (annual rainfall as 711.8mm), thus increasing the risk over drainage equipment; however, the Company conducts the flooding drills regularly each year, in order to prevent hazards. The scenario for the most significant decrease in total rainfall is RCP8.5 between 2041 and 2060, in which the daily rainfall decreases by 0.74mm (annual rainfall as 270.1mm), thus increasing the risk over water shortage equipment; for the time being, the Company wishes to increase the water supply in Hushan Reservoir, in order to mitigate the risk over water shortage.</p> <table border="1" data-bbox="566 1246 2110 1428"> <thead> <tr> <th data-bbox="566 1246 1207 1281">Item</th> <th data-bbox="1207 1246 2110 1281">Taiwan (Main Plant and Second Plant)</th> </tr> </thead> <tbody> <tr> <td data-bbox="566 1281 1207 1361">Scenario Analysis</td> <td data-bbox="1207 1281 2110 1361">Prediction is made for the scenarios of RCP2.6, RCP4.5, RCP6.0, and RCP8.5, and scenario RCP 8.5 is used to perform the risk assessment of extreme weather</td> </tr> <tr> <td data-bbox="566 1361 1207 1396">Time scale</td> <td data-bbox="1207 1361 2110 1396">2020~2040 and 2040~2060</td> </tr> <tr> <td data-bbox="566 1396 1207 1428">Rising sea level</td> <td data-bbox="1207 1396 2110 1428">No impact</td> </tr> </tbody> </table>	Item	Taiwan (Main Plant and Second Plant)	Scenario Analysis	Prediction is made for the scenarios of RCP2.6, RCP4.5, RCP6.0, and RCP8.5, and scenario RCP 8.5 is used to perform the risk assessment of extreme weather	Time scale	2020~2040 and 2040~2060	Rising sea level	No impact
Item	Taiwan (Main Plant and Second Plant)								
Scenario Analysis	Prediction is made for the scenarios of RCP2.6, RCP4.5, RCP6.0, and RCP8.5, and scenario RCP 8.5 is used to perform the risk assessment of extreme weather								
Time scale	2020~2040 and 2040~2060

Item	Implementation Status																																			
	<p>6.2 To enable stakeholders to fully understand the efforts and achievements of the Company in promoting energy conservation, emission reduction, and circular economy, as well as our capacity for management of physical and transition risks and opportunities of climate change adaptation, the Company has prepared a report based on the TCFD framework. The report is updated annually and published on the company website. The 2025 edition was released on August 2026. For indicators and goals related to the management of physical and transition risks, please refer to the Company's TCFD report. This year marks the final issuance of the standalone report. Going forward, relevant climate-related information will be integrated into the sustainability section of the annual report in accordance with the IFRS S2 requirements.</p>																																			
<p>7. If internal carbon pricing is used as a planning tool, the basis for setting the price should be stated.</p>	<p>7.1 The Company responded to the emission limits imposed under the "Climate Change Response Act (originally named "Greenhouse Gas Reduction and Management Act") of the Environmental Protection Administration as early as 2018 with the implementation of an internal carbon pricing system. The carbon emission price has been set at NT\$1,500 per tonne based on Article 28 of the "Greenhouse Gas Reduction and Management Act," and the carbon emissions were set as NT\$10 per tonne, and no more than NT\$1,500 per tonne if they exceed the target carbon emissions. The price is being used for internal evaluation of greenhouse gas-related risks and opportunities.</p> <p>7.2 The Company calculated the internal carbon pricing in 2025. Specifically, the carbon emissions were set as NT\$10 per tonne, and no more than NT\$1,500 per tonne if they exceed the target carbon emissions. Meanwhile, taking 2019 as the base year, the Company aims to reduce the emissions by 2.5% each year as its estimated annual target emissions. The carbon emissions in Taiwan Plant was 122,000 tonnes in 2025. The charges for carbon emissions in 2025 are estimated to be NT\$1,220,000. This year marks the final issuance of the standalone report. Going forward, relevant climate-related information will be integrated into the sustainability section of the annual report in accordance with the IFRS S2 requirements.</p>																																			
<p>8. If climate-related targets have been set, the activities covered, the scope of greenhouse gas emissions, the planning horizon, and the progress achieved each year should be specified. If carbon credits or renewable energy certificates (RECs) are used to achieve relevant targets, the source and quantity of carbon credits or RECs to be offset should be specified.</p>	<p>8.1 The Company's carbon reduction target was validated by Science-based Targets initiative, SBTi, becoming the first textile company in Taiwan to be validated. The Company commits to reduce scope 1+2 GHG emissions 26.3% by 2027 from a base year 2019, and also commits to reduce scope 3 GHG emissions 20% within the same timeframe. The Company will continue moving towards the vision of carbon neutrality in 2050.</p> <p>8.2 To strengthen the management of GHG emission, the Company introduced SBTi to calculate the goal and pathway for reducing carbon emissions. The Company sets 2019 as the base year. The Taiwan Plant needs to cut down 50% of GHG emissions by 2030 compared with the base year. The GHG emissions of Taiwan plant in 2023, verified in accordance with ISO 14064 by SGS Taiwan Limited, was less than 63.7% compared with the base year. In addition, the Company was ranked A list in Climate Change by CDP in 2023. The Company upholds the spirits of sustainable development and show our resolution in reducing carbon emission, expecting to reach carbon neutrality by 2050. The GHG emissions in Taiwan Plant over past years are shown as the table below:</p> <p style="text-align: right;">Unit : CO<sub>2</sub>e/tons</p> <table border="1" data-bbox="562 1209 2112 1433"> <thead> <tr> <th>Year</th> <th>*2019<sup>A</sup></th> <th>2023</th> <th>2024</th> <th>2025<sup>B</sup></th> <th>Difference<sup>(A-B)</sup></th> <th>Variance Rate (%)</th> </tr> </thead> <tbody> <tr> <td>Scope 1</td> <td>347,211</td> <td>78,689</td> <td>59,183</td> <td>62,016</td> <td>285,195</td> <td>-82.13%</td> </tr> <tr> <td>Scope 2</td> <td>98,220</td> <td>83,080</td> <td>80,976</td> <td>76,045</td> <td>22,175</td> <td>-22.57%</td> </tr> <tr> <td>Total</td> <td>445,431</td> <td>161,769</td> <td>140,159</td> <td>138,060</td> <td>307,371</td> <td>-69.00%</td> </tr> <tr> <td>Unit Emissions</td> <td>16.22</td> <td>7.35</td> <td>6.58</td> <td>6.80</td> <td>9.42</td> <td>-58.07%</td> </tr> </tbody> </table>	Year	*2019 <sup>A</sup>	2023	2024	2025 <sup>B</sup>	Difference <sup>(A-B)</sup>	Variance Rate (%)	Scope 1	347,211	78,689	59,183	62,016	285,195	-82.13%	Scope 2	98,220	83,080	80,976	76,045	22,175	-22.57%	Total	445,431	161,769	140,159	138,060	307,371	-69.00%	Unit Emissions	16.22	7.35	6.58	6.80	9.42	-58.07%

Item	Implementation Status
<p>9. Greenhouse gas inventory and assurance status and reduction targets, strategy, and concrete action plan (also filled in 1-1 and 1-2).</p>	<p>9.1 Since 2018, the Company has been conducting greenhouse gas inventory and commissioning external organizations such as SGS and BSI for verification. It has also reported the emissions to the Ministry of Environment in accordance with the law.</p> <p>9.2 In order to demonstrate its commitment to carbon reduction, the Company not only publicly declares short-, medium-, and long-term goals, but also submits reports to the International Carbon Disclosure Project (CDP) Organization annually to disclose the Company's carbon management practices. In 2024, it achieved the "Leadership level" in the rating.</p> <p>9.3 To verify the effectiveness of carbon reduction, the Company has set a goal of limiting temperature rise to no higher than 2°C to control carbon reduction and has applied for certification from the International SBTi (Science Based Targets initiative) organization, which has been recognized and approved. Its goal is to achieve an annual average reduction of 2.5% in Scope 1 and Scope 2 emissions within 5 to 15 years.</p>

## 1.1 The Company's greenhouse gas inventory and assurance in the recent two years

### 1.1.1 Information on greenhouse gas inventory

State the greenhouse gas emissions (metric tons of CO <sub>2</sub> e), intensity (metric tons of CO <sub>2</sub> e/million), and scope of data coverage in the recent two years:					
Year	Scope of data coverage	Scope 1		Scope 2	
		Amount of Emissions (tCO <sub>2</sub> e/million)	Emission intensity (tCO <sub>2</sub> e/million)	Amount of Emissions (tCO <sub>2</sub> e/million)	Emission intensity (tCO <sub>2</sub> e/million)

Note 1: The scope of the parent company includes Gas Stations and the Taipei Office. Relevant information for the gas stations and the Taipei Office for the year 2023 has been supplemented. According to the current international recognized standard (take SBTi for example, under 5% of total combined scope 1 and 2 emissions are deemed immaterial) and the regulations announced by the Bureau of Environment (the emission sources under 0.5% of total emissions can be calculated in a simple quantitative way, which shall not more than 5% of total emissions), but in pursuit of the goal of sustainable environment, Formosa Taffeta Hong Kong CO., LTD. and Public More Internation Company Ltd. continue conducting environmental assessments. The Scope 3 greenhouse gas emissions of the Company (including subsidiaries included in the consolidated financial statements) amounted to 2,220,684.74 metric tons of CO<sub>2</sub>e. As the Hong Kong office shares office space with Schoeller, the related emission sources and electricity consumption cannot be clearly identified or allocated. Therefore, the associated emissions have been fully recognized under Schoeller Textil AG and disclosed under Scope 3 Category 15 "Investments."

Note 2: Direct emissions (Scope 1, i.e., emissions directly from sources owned or controlled by the Company), and energy indirect emissions (Scope 2, i.e., greenhouse gas emissions indirectly caused by the input of electricity, heat, or steam).

Note 3: The scope of data coverage of direct emissions and energy indirect emissions shall be handled in accordance with the schedule specified in the provision of Article 10, Paragraph 2 of the Guideline. Information on other indirect emissions may be voluntarily disclosed.

Note 4: Standard for greenhouse gas inventory: Greenhouse Gas Protocol (GHG Protocol) or ISO 14064-1 issued by the International Organization for Standardization (ISO).

Note 5: The intensity of greenhouse gas emissions can be calculated by using product, service, or revenue per unit. However, at least the data calculated by revenue (NT\$ million) shall be stated.

### 1.1.2 Information on greenhouse gas assurance

State the explanation of assurance during the recent two years up to the date of publication of the annual report, including the scope of assurance, assurance agencies, assurance standards, and assurance opinions:

## 1.2 Greenhouse gas reduction goals, strategies, and specific action plans

State the base year and its data, reduction goals, strategies and specific action plans, as well as the achievement of reduction goals of greenhouse gas reduction

1. State the base year, its data, and reduction goals:  
The Company commits to reduce scope 1+2 GHG emissions 26.3% by 2027 from a base year 2019, and also commits to reduce scope 3 GHG emissions 20% within the same timeframe. 33.8% reduction in Scope 1 and Scope 2 emissions is targeted by 2030. The Company will continue moving towards the vision of carbon neutrality in 2050.
2. State the strategies and specific action plans:
  - (1) The Company's carbon reduction targets cover Scope 1 and Scope 2 emissions, which primarily arise from electricity consumption and production-related activities at operational sites. To continuously reduce greenhouse gas emission intensity, the Company has implemented various measures, including the introduction of energy-efficient equipment, self-generated and self-consumed solar power, and the purchase and use of renewable electricity. The Company has also promoted the low-carbon transformation of boiler systems, including the phase-out of coal-fired boilers, the conversion of steam boiler fuel from oil to natural gas, and the replacement of oil-fired boilers with direct natural gas heating. In addition, greenhouse gas inventories are verified annually by an independent third party in accordance with the Ministry of Environment regulations and ISO 14064 standards to ensure the accuracy and reliability of carbon emission data.
  - (2) The carbon reduction plan for Scope 1 and 2 is through the usage of energy saving equipment and renewable energy. In addition, the Scope 1 and 2 emissions are verified by the third party in accordance with ISO 14064.
  - (3) The Company establishes three pillars to reach SBTi Target:
    - 2.1 Introduction of advanced manufacturing process technology to increase the production and energy efficiency.
    - 2.2 Promote the renewable energy usage and low-carbon energy transition to fulfill the energy saving and emission reduction.
    - 2.3 Develop environment-friendly and low-carbon products in cooperation with our value chain, establishing comprehensive audit and mentoring framework to engage with suppliers regarding ESG issues, and forms a task force to enhance the climate change capabilities and competition of the Company.
  - (4) The Company has become a TCFD supporter at the end of 2020 and disclosed the strategies and measures in response to climate change with the reference to TCFD recommendations. The Company has been rated as Leadership Level in Climate Change and Water Security by CDP; additionally, the Company was invited to "CDP Taiwan Forum," jointly held by CDP and BCSD Taiwan. It shows the recognition on the Company's long efforts in combating climate change.
3. The achievement of reduction goals of greenhouse gas reduction:  
The GHG emissions in Taiwan Plant in 2025 was 138,060 tons, reduced by 307,371 tons (-69%) compared with 2019, base year, - 445,431 tons. The GHG emissions in Taiwan Plant over past years are shown as the table below:

Unit : CO<sub>2</sub>e/tons

Year	*2019 <sup>A</sup>	2023	2024	2025 <sup>B</sup>	Difference <sup>(A-B)</sup>	Variance Rate (%)
Scope 1	347,211	78,689	59,183	62,016	285,195	-82.13%
Scope 2	98,220	83,080	80,976	76,045	22,175	-22.57%
Total	445,431	161,769	140,159	138,060	307,371	-69.00%

<p>the operation of its own principles and the difference with the later:  The company's board of directors approved revised ""corporate ethical management principles" on Nov. 7, 2014 and resolved to make further revision of the principles on June 23, 2017. The company's principles are in general similar to the official version but stress more the nature of guidelines and integration, to accommodate the need of the company's survival and development.</p>				
<p>F. Other key information conducive to the understanding of the operation of the company's ethical management (such as how does the company revise its ethical management principles).  The company arranges attendance of corporate-governance courses by directors and managerial staffers every year to augment their capabilities governing and supervising various businesses, in the hope of boosting governance efficacy and materializing ethical management.</p>				

(H) Disclose other important information conducive to the understanding of the operation of the company's corporate governance:

The company has formulated "Guidelines for Ethical Conducts of the Company's Directors and Managerial Staffers" (for details, refer to the company's annual report, item 5 specially registered items, VI).

The company will publish the latest "2025 Sustainability Report" by the end of August 2026; please access to the company's website at [http://www.ftc.com.tw/newftc/respons\\_report.php](http://www.ftc.com.tw/newftc/respons_report.php)

(I) Execution status of internal control system

1. Statement on internal control system

Statement on internal control system by public companies

(Legal compliance specified in the statement is applicable to all laws/regulations)

Formosa Taffeta Co., Ltd.  
Statement on Internal Control System  
March 10, 2026

Based on self-assessment, the company makes the following statement on the company's internal control system in 2025:

1. The company is fully aware that establishment, execution, and maintenance of internal control system is the company's board of directors and managerial staff, in order to provide reasonable assurance for the efficacy and efficiency of operation (including profitability, performance, and protection of the safety of assets), the reliability, timeliness, and transparency of reports, and compliance with related norms, regulations, and laws.
2. Internal control system has its inherent constraint, as it, no matter how perfect is its design, can only provide reasonable assurance for the attainment of the aforementioned three objectives. In addition, change in environment and status may affect the efficacy of internal control system. Therefore, the company's internal control system has a mechanism of self-supervision, capable of locating defects for immediate rectification.
3. The company evaluates the efficacy of its internal control system, according to the evaluation items contained in the "Regulations Governing Establishment of Internal Control Systems by Public Companies" ("regulations" in short hereafter), which divides internal control system into five constituents, according to the procedure of management control: 1. control environment, 2. risk management, 3. control activities, 4. information and communications, 5. monitoring activities, with each containing several items (refer to the stipulations of the "regulations.")
4. The company has employed the aforementioned evaluation items in checking the efficacy of the design and execution of the internal control system.
5. Based on the aforementioned evaluation result, the company believes that with reasonable assurance, the company's internal control system (including supervision and management of subsidiaries) as of Dec. 31, 2025 had been effective in both design and execution concerning understanding of the efficacy and efficiency of management, reliability, timeliness, and transparency of reports, and compliance with related norms, regulations, and laws.
6. The statement will be publicized, as a major part of the company's annual report and prospectus. Falsehood, concealment, and other illegalities in the aforementioned publicized contents would entail legal responsibilities, according to article 20, article 32, article 171, and article 174 of the Securities and Exchange Act.
7. The statement was approved by the company's board of directors on March 10, 2026, endorsed by all of the 11 directors in attendance, without any contrary opinion.

Wong Wen-Yuan  
Chairman  
Signature

Lee Ming-Chang  
President

Formosa Taffeta Co., Ltd.

2. In case review of internal control system is outsourced to certified public accountant, disclose the CPA review report: nil.

- (J) Major resolutions of shareholders' meeting and the board of directors in the recent year and as of the date for the publication of the yearbook

**1. Shareholders' meeting on June 20, 2025**

Directors in attendance: Won, Wen-Yuan, Hong, Fu-Yuan, Lee, Ching-Fen, Lee, Ming-Chang, Lee, Chien-Kuan, Chen, Kun-Yuan, Lee, Man-Chun (attendees above are directors), Lin, sheng-Chung (Chair of the Audit Committee), Kuo, Nein-Hsiung, Kuo, Chia-Chi (attendees above are independent directors), including 10 directors, which exceeded one-half of the total 11 board seats.

**(1) Ratification Items**

Case 1

Contents: The Company's 2024 Business Report and Financial Statements proposed in accordance with the law. Please proceed to ratify. (Proposed by the Board of Directors)

Resolution: The total number of voting rights of shareholders present at the time of voting for this case was 1,158,156,983; the result: 1,138,521,217 votes of recognition (with 1,015,305,770 electronic votes), accounting for 98.3% of the total voting rights; 986,458 votes of opposition (with 986,458 electronic votes); 0 invalid vote; 18,649,308 votes of abstention and unvote (with 18,649,308 electronic votes). The number of recognition exceeded the required amount and the proposal was ratified.

Case 2

Contents: The Company's 2024 earning distribution proposed in accordance with the law. Please proceed to ratify. (Proposed by the Board of Directors)

Resolution: The total number of voting rights of shareholders present at the time of voting for this case was 1,158,156,983; the result: 1,139,069,026 votes of recognition (with 1,015,853,579 electronic votes), accounting for 98.3% of the total voting rights; 1,016,657 votes of opposition (with 1,016,657 electronic votes); 0 invalid vote; 18,071,300 votes of abstention and unvote (with 18,071,300 electronic votes). The number of recognition vote exceeded the required amount and the proposal was ratified.

Status of execution: On March 7, 2025, the Board of Directors resolved to approve a cash dividend distribution of NT\$0.8 per share and submitted the matter to the Annual General Shareholders' Meeting for reporting. The earnings distribution table was approved by the shareholders' meeting. Subsequently, the Board of Directors resolved on June 20, 2025, to set July 30, 2025, as the record date for the cash dividend distribution, with payment to be made on August 27, 2025.

## **(2) Discussion Items (I)**

### Case 1

Contents: Amendment to the Articles of Incorporation of the Company. Please proceed with the discussion. (Proposed by the Board of Directors)

Resolution: The total number of voting rights of shareholders present at the time of voting for this case was 1,158,156,983; the result: 1,136,556,897 votes of recognition (with 1,013,341,450 electronic votes), accounting for 98.1% of the total voting rights; 991,570 votes of opposition (with 991,570 electronic votes); 0 invalid vote; 20,608,516 votes of abstention and unvote (with 20,608,516 electronic votes) The number of recognition vote exceeded the required amount and the proposal was ratified.

Status of execution: According to the resolution of the shareholders' meeting, the amended rules shall be announced on the Company's website.

## **(3) Extraordinary Motion: nil**

### **2. First 2025 meeting of the board of directors on March 7**

#### Case 1

Contents: Proposal of the 2024 Remuneration of Directors and Employees. (Supplementary report by the Secretariat, part of the director's remuneration in this case has been submitted to the Remuneration Committee for approval.)

Independent Directors' opinions and the treatment status: None.

Resolution: All the Directors present at the meeting agreed to pass the case and report it to 2025 Annual Meeting of Shareholders.

#### Case 2

Contents: Proposal for the 2024 financial statements and 2025 business plan. (The Secretariat reported that the appendix of this proposal have been submitted to the Audit Committee for approval, and Mr. Cheng, the vice president of the General Mgmt. Div., reported the 2024 operating status and the 2025 business plan.)

Independent Directors' opinions and the treatment status: None.

Resolution: All Directors present agreed to pass the case.

#### Case 3

Contents: Proposal of the 2024 earnings distribution.

Independent Directors' opinions and the treatment status: None.

Resolution: All Directors present agreed to pass the case.

#### Case 4

Contents: Calling of the 2025 Shareholders' Meeting to take place on June 20,2025.

Independent Directors' opinions and the treatment status: None.

Hsieh, Ming-Der		15,583,818	0.93%

Note: Shareholders ratio for the top ten shareholders

(C) The company's dividend policy and execution status

1. Dividend policy

With business belonging to mature industry, the company retains stable profits, with dividend policy focusing on cash-dividend payout, capital increment with earnings, and capital increment with capital reserves. After deducting appropriations for legal reserve and special reserve, at least 50% of the distributable earnings of the current year is used in dividend payout, especially cash dividend. The combined amount of capital increment with earnings and capital increment with capital reserves should not exceed 50% of the dividend payout of the year.

2. Proposal for dividend payout at the shareholders' meeting

The Company proposes to distribute cash dividend NT\$0.5 per share, totaling NT\$0.5 dividend per share.

3. Expected major change in dividend policy: nil.

(D) Effect of proposal of stock grants at the shareholders' meeting on the company's business performance and earnings per share: not applicable (the company doesn't compile financial forecast).

(E) Compensations for employees and directors:

1. Percentage and scope of compensations for employees and directors specified in corporate charter: After settlement of final account, the resulting net profit, after deduction of business income tax, should be used in priority to cover accumulated loss of previous years, before appropriation of 10% of the balance as legal reserve and, However, this shall not apply when the legal reserve has accumulated to an amount equal to the paid-in capital. if necessary, additional appropriation as special reserve, followed by appropriation for dividend. The remaining earnings, should it exist, would be combined with accumulated retained earnings of previous years for formulation of shareholder bonus payout by the directors for submission to shareholders' meeting for approval.

According to revised corporate charter approved by shareholders' meeting on June 20, 2025, when allocating the net profits for each fiscal year, the Company shall set aside 0.05% to 0.5% of the balance of pre-tax profit prior to deducting employees' and directors' compensation as employees' compensation and 0.5% of that at most as directors' compensation. However, the Company's accumulated losses shall have been covered. The employee compensation mentioned in the previous paragraph shall be allocated at a rate ranging from 0.05% to 0.49% of the pre-tax profit before deducting employee and director compensation for the current fiscal year, to adjust the salaries or distribute compensation to the grassroots employees.

2. Accounting for difference between the estimate as the basis for compensations for employees and directors and number of shares as the basis for stock payout as employee compensations and the actual payout value:

Estimate as the basis for compensations for employees and directors is made according to related law/regulation, the company's charter, and past experience. Difference between the estimate and actual payout value, if any, would be handled as variable in accounting and listed as profit/loss of next year.

3. Payout of compensations approved by the board of directors:

The company's board of directors passed the following resolution on March 10, 2026:

- (1) Cash payout of NT\$1,891,572 for employee compensation, NT\$0 for employee remuneration distributed in the form of stock, and NT\$945,786 for compensations for directors.
  - (2) No payout for employee compensation in the form of stock, with share of such payout in after-tax net profit and total employee compensation being zero.
4. Explain the difference, if any, between actual payout for compensations for employees, directors, and supervisors in previous year (including the number of shares and value of money paid out and stock price) and the recognized amount of compensations for employees, directors, and supervisors, the scale of difference, reason, and handling status: Status of execution of payout approved by shareholders' meeting of the company on June 20, 2025:
- (1) Actual bonus payout in cash for employees reaches NT\$3,119,754 and NT\$1,559,877 for compensations for directors, with no stock payout;
  - (2) actual bonus payout for employees in the form of stock is zero, with share in capital increment with earnings being zero;
  - (3) after deduction of aforementioned payouts, earnings per share is imputed at NT\$0.89.
  - (4) there is no difference between the aforementioned actual payout and the payout plan approved by the board of directors.

(F) Share buyback by the company: nil.

**B. Issuance of corporate bonds: nil**

**C. Issuance of special shares: nil**

**D. Issuance of overseas depository receipts: nil**

**E. Issuance of employee stock option certificates: nil**

**F. Managerial staffers with acquisition of employee stock option certificates and names of top 10 employees with largest number of employee stock option certificates and status of acquisition and subscription: nil**

**G. Issuance of restricted stock awards: nil**

**H. Managerial staffers with acquisition of restricted stock awards and names of top 10 employees with largest number of restricted stock awards and status of acquisition: nil**

**I. Issuance of new shares for acquisition of other company or transfer of other company's shares: nil**

**J. Status for the execution of fund utilization plan:**

(A) Contents of plan

1. Previous securities issuances or private share placements which have not been completed as of the date of the publication of annual report: nil
2. Plans in recent three years which have been completed but have yet to manifest significant benefits: nil

(B) Execution status

Analyze item by item the purposes of aforementioned various plan as of the quarter prior to the publication of the annual report, execution status, and comparison with anticipated benefits: nil

## **IV. Business Status**

(A) Business scope (according to business items registered with the Department of Commerce, the Ministry of Economic Affairs)

1. The company's major business items are:

- ( 1)production and sale of nylon fabric and polyester fabric;
- ( 2)production and sale of the alveolar bone of umbrella rib and tyre cord;
- ( 3)manufacturing, processing, and sale of polymers and related products;
- ( 4)traditional combed cotton yarn, blended yarn, new functional yarn, special protective yarn, and woven fabric;
- ( 5)production and sale of protective textile devices, including: [1] bulletproof vest, jacket, helmet, shield, mask; abrasion-resistance fabric, and products with composite materials (sports devices, fishing gear); [2] industrial work clothes, including clothes with acid-, alkaline-, fire-, and high temperature endurance and reprocessed products using such textiles, including fire-fighting coat, anti-heat clothes for working in boiler room, and chemical-industry work clothes; [3] clean-room wares (sterilized clothes, surgical gown, medical wrapping cloth, anti-static electricity clothes), and sterilized clothes;
- ( 6)Information software and service and design, manufacturing, and sale of communications software/hardware and components;
- ( 7)management of recreational area, children's amusement park, park, camping ground, swimming pool, skating rink, zoo, and general sports ground and lease of gear for water recreational activities and yacht;
- ( 8)management of hotel and affiliated restaurant;
- ( 9)transactions in staples, artifacts, groceries, general merchandise, and apparels;
- ( 10)agency and production of domestic and foreign artistic and performing-art events;
- ( 11)running of gas stations for sale of gasoline, diesel oil, kerosene, and petroleum products in small package, plus lubricant oil for autos and motorcycle, as well as simple maintenance, car washing, auto and motorcycle products, convenience store, parking lot, operation of automatic vending machine, and entrusted operation of regular auto inspection;
- ( 12)other businesses except those forbidden or restricted by law/regulation.

The above are the major business contents of Formosa Taffeta Co., Ltd.

## 2. 2025 Revenue distribution

unit: NT\$1000

Major products	Unit	Quantity	Amount of Sales (Unit: NT\$1,000)	%
Oil products	Kiloliter	390,101	10,261,595	37.26
Polyamide/Polyester fabric	1,000 yards	198,846	12,662,987	45.97
Polyamide/Polyester Tire Cord	Metric ton	16,489	2,942,399	10.68
Special textile	1,000 yards	5,234	1,115,828	4.05
PE bags	Metric tons	2,039	127,972	0.47
Number of yarn	Pieces	8,739	323,065	1.17
Land development	-		66,911	0.24
Business recruitment	-		37,577	0.14
Commission income	-		5,455	0.02
Total	-		27,543,789	100.00

## 3. The company's existing products:

Filament polyamide/polyester woven fabric, spun woven fabric, filament and spun interwoven fabric, dyed check, Environmental protection copper amine rayon plain weave, polyamide /polyester tire cord, PE bag, combed cotton yarn, blended yarn, new functional yarn, special protective yarn and textile, Military uniform / police uniform / firefighting fabric, medical fabric, bullet-proof fabric, composite-material textile, Clean clothes/clean room work clothes fabric, gas-station service, daily-life products, and car-washing service.

## 4. New products planned to be developed:

Environmental materials, development and application of nano-level materials, recycled polyester & polyamide from the ocean waste, ultralight fabrics, environmental and recycled woven fabrics, biodegradable fabrics, bio-based fabrics, recycled fluorine-free water-repellant fabric, multifunctional smart clothing fabric for temperature control and photovoltaic positioning , waterless dyeing technology, bluesign® polyamide textile featuring chemical-free processing, fireproof and anti-near infrared camouflage fabric, high visibility fireproof fabric, flame retardant fabric against molten iron splash, the development of the tablet for automated robotic arm and thermoplastic board for 3C.

## (B)Industry status

### 1. Polyamide/polyester dyed fabric

In 2025, our brand clients successfully reduced inventory levels and effectively stimulated market demand, leading to a recovery in overall market activity.

Furthermore, The Company partnered with the Taiwan Textile Research Institute (TTRI) to develop a globally unique polyamide-based nanofiber electrospinning membrane, which can be applied to high-performance waterproof, breathable, and

moisture-wicking fabrics. This innovative eSMORE-TEX™ fabric was showcased at the TITAS exhibition. A production line for polyamide nanofiber waterproof, breathable, and moisture-wicking membranes has been established at the Company's Taiwan facility. The introduction of this technology will further enhance the Company's competitive advantages and industry influence. In addition, this polyester-based fabric enables true "Textile-to-Textile" recycling (T2T). The Company has also expanded GORE production capacity in Vietnam to strengthen its overall supply chain.

Looking ahead to 2026, supported by strong technical capabilities in high-end functional products and long-standing relationships with major sports and outdoor brand customers, the Company will continue to position Taiwan as its operational hub. Under its global strategy of localized supply, the Company will deepen integrated collaboration across its three regions and five plants, strengthen cross-regional capacity integration and operational resilience, actively pursue brand orders, and allocate capacity across regions based on customer needs to ensure stable lead times, consistent quality, and overall cost efficiency. The Company will also continue to advance digital transformation and optimize its supply chain, actively expanding into new customers and markets, while further strengthening applications across the three major end markets of sportswear, outdoor performance, and casual fashion apparel, thereby enhancing overall market competitiveness. Additionally, we will leverage big data analytics and automation equipment to continuously optimize equipment, processes, and quality management, improving first-pass dyeing success rates, production efficiency, and quality stability. At the same time, we will collaborate with garment supply chain partners to promote the application of recycled materials, continuously develop sustainable and eco-friendly products and processes. The Company will fully commit to achieving the business goals set for 2025.

## 2. Tire cord fabric

(1) Looking back at 2025, the high inventory levels in tire cord fabrics have been resolved. Sales of high-value single-ply cord fabrics increased year-over-year, and demand for polyamide 6 eco-friendly single-ply cord fabrics grew steadily on a quarterly basis. The Company actively integrated tire cord production capacity, increased the production of high value-added products such as bicycle tire cord fabrics and anti-abrasion fabrics, and expanded adoption among brand customers. By effectively leveraging resources between its Taiwan and Vietnam plants, the Company reduced costs and maximized operational efficiency. In recent years, the supply of curtain products has been

in oversupply due to the constantly expanded production capacity of competitors in Mainland China, and price competition has been intense. The domestic sales market in Taiwan faces tariff-free imports of polyamide curtains from Mainland China; furthermore, Taiwan is unable to be entitled to tariff discounts as an importing country and encounters other unfavorable factors for export sales, meaning selling prices have been suppressed for a long time. Due to the FTAs executed with other countries under the regional economy in which Vietnam participates, the Dong Nai Plant faces fewer tariff barriers for exports; however, it still faces price competition over orders with competitors from Mainland China.

(2)Correlation among industrial upstream, midstream, and downstream sectors:

Tire cord fabric's main materials are polyamine 6, polyamine-66, and polyester high tenacity yarn, supplied mainly by Formosa Plastics Group and filament plants in China, mostly with integrated operation, supplying tire cord fabric as well, making them the company's partner and rival at the same time.

(3)Product development trend and competition: Due to Vietnam's most-favored-nation tariff treatment, the Tire Cord Fabric Division adjusted its production strategy by shifting product manufacturing to its Vietnam plant. Looking ahead to 2026, the tire cord business will focus on differentiated and high value-added product positioning. With production line integration successfully completed, operational momentum is expected to gradually materialize. Leveraging polyamide, fine denier yarns, and ocean-recycled fibers as key raw materials, the Company will promote sustainable high-value applications and expand penetration into high-end and niche markets. The Company will continue to focus on applications of nylon-based materials, increasing the share of products such as anti-abrasion and puncture-resistant fabrics, targeting the two-wheeler market – including motorcycles and bicycles – to drive overall growth in the tire cord business.

### 3.Functional yarn

In 2025, affected by inflation, U.S. reciprocal tariffs, and the global dumping of various textile products by Mainland China, demand in the staple yarn market froze rapidly. The selling price of traditional yarn dropped, and the low-to-mid level functional yarn market became a battlefield between domestic yarn and imported yarn. Facing multiple unfavorable factors, the Company adopted multiple response strategies by expanding the sales volume of high-end protective yarn types in the North American market and reducing

the order-taking volume for low-end traditional yarn; furthermore, it also cooperated with the TTRI to successfully secure technology R&D project subsidies from the Industrial Development Agency, Ministry of Economic Affairs, with “carbon reduction textile product technology development with pineapple leaf fiber” as the theme to further open up opportunities for the expansion of carbon-reduction textile products. Looking ahead to 2026, the Company will focus on developing niche products, further optimizing its product portfolio, and securing continued support from government technology programs to develop new differentiated products. The Company will also actively participate in major global textile exhibitions to enhance market visibility and effectively expand the market share of functional yarn products, thereby improving profitability. These strategies are expected to effectively drive steady growth in both revenue and profit, injecting new momentum into the Company’s business development.

#### 4.Special fabric

Looking back at 2025, the Company’s special fabrics segment was impacted in the Southeast Asian market, with both sales volume and pricing falling short of expectations due to low-priced competition from China and India in the fire-resistant fabric market. In addition, demand in the medical fabric market declined significantly as low-priced competitors from China captured market share. Meanwhile, demand from Middle Eastern refineries for fire-resistant oilfield workwear continued to grow steadily.

Looking ahead to 2026, with market demand diversifying and rapidly changing, the Company actively respond to customer needs and market trends, focusing on expanding the Middle Eastern refinery market for oilfield workwear and military/police uniforms, which is expected to continue growing. Additionally, the Company fully strive to secure orders for military and flight suit fabrics from the United States and explore the potential applications of electrostatic fabrics in the environmentally-friendly, antimicrobial, and highly breathable medical fabric markets, further deepening market expansion. To enhance its competitive advantage, the Company will engage in strategic collaborations with raw material suppliers, aiming to reduce production costs while maintaining a market-leading position. The Company is committed to achieving its operational performance goals for 2026 and driving the continued growth of its special fabrics business.

#### 5.Carbon-fiber composite material

Looking back at 2025, the bicycle and sports equipment industries continued to digest

excess inventory accumulated during the pandemic, with demand expected to return to normal levels by the third quarter of 2026. The Company successfully developed high-value materials for robotic arms in Japan and bicycle handlebar applications, driving an increase in related orders. At the same time, orders from applications such as marine vessels, cooling tower blades, and export-oriented surfboards grew steadily, supporting an increase in overall shipment volume, with sales rising by 2% compared to 2024.

Looking ahead to 2026, the Company will actively develop diversified carbon fiber fabric products to meet varying customer needs, focusing on expanding applications in the fields of construction and structural reinforcement for equipment. The demand for carbon fiber woven fabrics is expected to continue growing. The Company also actively expanded into new application areas, including footwear materials, unmanned vessels, remote-controlled equipment, and medical components, while extending into the rapidly growing drone segment to enhance overall product competitiveness. In addition, multi-axis fabric products supported by DNV certification for four-axis carbon fiber fabrics will be further developed for applications in the maritime sector. In collaboration with raw material suppliers, the Company will also pursue opportunities in lower-tier wheel rim materials. Going forward, the Company will continue to align with customer needs, strengthen product development and market applications, expand its export market share, and drive steady growth in overall performance.

#### 6. Formosa Taffeta gas station

In 2025, Formosa Gas Stations operated 106 stations and has long focused on service, promotions, and management performance, making it one of the top five gas station networks in Taiwan. Looking back at 2025, although inflationary pressures and increased demand for new energy vehicles affected fuel sales volume, the Company maintained stable profitability.

Looking ahead to 2026, Formosa Gas Stations will continue to evaluate the operational performance of each station and the length of lease terms, strengthening station staff training, with a focus on public safety, high-quality service, and standardized management. In response to fluctuations in international oil prices, the Company strengthened tank inventory management and actively expanded its contract customer base to enhance profitability. At the same time, it will actively expand new stations and promote marketing campaigns in collaboration with the Formosa Petrochemical APP project. The

Company will leverage its channel advantages and social media marketing to promote travel lifestyle products and automotive by-products, meeting customers' diverse and convenient needs.

(C) The State of Technology and Research & Development

Year	Expense in R&D (NT\$)	Result
2025	240,023,243	<ol style="list-style-type: none"> <li>1. Development completed for recycled nylon 66 ultralight fabric</li> <li>2. (D) Long- and short-term business development plan

1. Polyamide/polyester filament woven & dyed fabric

1.1 Short term

- (1) Take advantage of capacities of five factories to effectively utilize factory equipment and manpower deployment, reducing production cost and shortening the lead time.

- (2) Materialize SOP (standard operating procedure) operation to avoid repetitive repair, rework, and abnormality, boosting product quality.
- (3) Intensify employee training via multi-dimension courses with rich contents, so as to enhance employees' professional value and corporate competitiveness.
- (4) Augment customer satisfaction and deepen collaboration with upstream and downstream supply-chain partners, so as to boost the profits.
- (5) Utilize the recycled raw materials to develop environmental products with add-valued, meeting the trend of environment protection.
- (6) Improve equipment and product process, and cut energy consumption and emission.
- (7) Introduce AI and automated equipment, thereby boosting production efficiency, cutting production cost.

## 1.2 Long term

- (1) Visit branded customers on own initiative and attend various major exhibitions, integrate digital marketing platforms, grasp market trend, and deepen collaboration with branded customers, so as to raise product market share.
- (2) Take advantage of the capacities of five factories, solidify the supply chain, expand and develop the high-added and differentiated products, and meet the demands of customers, so as to boost profitability.
- (3) Effectively improve process or equipment for saving steam, water, power, and fuel, as well as carbon abatement, thereby cutting cost and raising investment benefits.
- (4) Actively engage in R&D and innovation, sustainability, and rapid response to meet customer demands, thereby enhancing mobility and competitiveness.

## 2. Tire cord fabric

### 2.1 Short term

Affected by the ongoing inventory adjustment across the global tire industry supply chain, the pace of market demand recovery remained cautious, with the industry still primarily focused on inventory destocking. In response, the Tire Cord Fabric Division continued to optimize its product portfolio while enhancing production efficiency and reducing manufacturing costs through flexible allocation of equipment and human resources.

At the same time, the Division strengthened professional training for

employees and reinforced the implementation of standard operating procedures to minimize process abnormalities and rework, thereby further improving product quality and delivery stability to meet customer needs.

## 2.2 Long term

To strengthen the operations of the Taiwanese and Vietnamese factories, in addition to intensifying various management-data analysis, raising management efficacy, and reducing failure cost, efforts will be made to rationalize production scheduling, precisely control various costs, and augment equipment availability. Besides, improvement task forces will be set up, pushing and tracking quality-abnormality rectification, new product development, and cost reduction, so as to boost production strength and product competitiveness.

## 3. Functional Yarn

### 3.1 Short term

- (1) Find proper new fiber and integrate the special textile factory's advantages in technology and sales channel in consolidating presence in the high-tier protective fabric market and tapping low- and medium-tier protective fabric market, the latter via collaboration with partners.
- (2) Continue alliance with major upstream raw-material suppliers and develop new products and usages with existing materials, so as to prolong product life.
- (3) Through multi-skilled worker training, integration of production line equipment, and adjustments to production processes, manpower was appropriately streamlined to enhance competitiveness.

### 3.2 Long term

Introduce new hi-tech textile raw materials in the world, develop custom differentiated sustainable environment-friendly products, meeting end customers' plural needs, take advantage of factory's technological edge, and integrate upstream, midstream, and downstream products, in the hope of becoming key problem solver for functional short-fiber textiles.

## 4. Carbon-fiber fabric

### 4.1 Short term

- (1) Start from uniforms of servicemen (servicewomen), policemen, firefighters, and industrial-safety personnel in the development of fireproof fabric, application of manufacturing process in uniform fabric and medical fabric, develop post-pandemic fabric and seek new applications of carbon-fiber

composite fabric, such as e-vehicle composite-material accessories, and seek product diversification, so as to boost sales.

- (2) In collaboration with major raw-material suppliers and customers, tap European, the U.S., and Japanese markets, as well as emerging Asia-Pacific market and embrace plural-material strategy, in the hope of offering one-stop service to customers and meet market demands.
- (3) Collaborate with upstream and downstream partners in pushing products, and utilize digital marketing to attain plural sales channels, so as to enhance market share and sales value.

#### 4.2 Long term

In addition to integrating existing technologies, increase textile machines and upgrade technology via collation with major partners, and actively tap new product markets, while consolidating existing markets for fireproof fabric, anti-static electricity fabric, and industrial fabric, so as to enhance profits.

### 5. Carbon-fiber composite material

#### 5.1 Short term

Integrate orders to increase lot-size production and cut processing fee and expand markets, via collaboration with dealers.

#### 5.2 Long term

Develop carbon fiber-resin composite material, to tap auto, bicycle, and sports equipment markets, take advantage of professional composite material forming technology to collaborate with customers in developing and engaging in component production.

### 6. Formosa Taffeta gas stations

#### 6.1 Short term

- (1) Recruit customers by contract: Solicit bulk oil-consumption customers in the fields of agricultural machines and industries, so as to boost oil sales.
- (2) development plural payment instruments and intensify sales promotion, so as to stabilize existing customers and strive for new ones and enhance oil sales.
- (3) Offer sophisticated car-washing service and improve service quality, to increase revenue.
- (4) Adjust stocks, in line with price fluctuation.
- (5) Enhance corporate image, via engagement in community charity activities.
- (6) In line with increasingly strict supervision of gas stations by municipal governments, in terms of inspection of safety, equipment, and environmental

protection, the company carried out online management of all the 106 stations, improving report of defects, reducing penalties, strengthening environmental protection, and assuring communal safety.

## 6.2 Long term

- (1)Phase out stations with lackluster performance, taking into account lease length and locations, so as to boost overall profits of gas station operation, expanding market share by increasing new stations.
- (2)To save manpower and meet customer demands, increase installation of self-service filling equipment, as part of the effort to fully automate the operation of gas stations, so that every station has self-service option to provide customer discounts.
- (3)Push co-brand card and membership card, to increase non-oil revenue and raise customer loyalty.
- (4)Diversify revenue sources, offer sales of urea, sales of the Company's own products, manual car washing and installation of charging and replacement power stations, etc.
- (5)With electric motorcycles have caused an increasing impact on the operation of gas stations, cautiously consider long-term countermeasures for the trend of electric vehicles and driverless cars, but environmental protection and carbon reduction that are conducive to Taiwan 's environment, are generally in response to technological changes.

## **B. Market and production/sale status**

### (A) Market analysis

#### 1.Major outlets and market shares

##### (1)Polyamide/Polyester filament dyed fabric

Formosa Taffeta's textile products are shipped mainly to four end markets: sportswear with 47.1%, outdoor functional wear with 41.2 %, casual wear with 7.1%, and umbrella with 4.6%. Major customers are international renowned brands, with which the company has entered into strategic alliance, forming a tight supply chain along with apparel manufacturer customs, which covers product design, joint development of materials, fabric design, dyeing and finishing, and apparel. The company's fabric is supplied mainly to apparel plants in China, Hong Kong, Northeast Asia (South Korea, Japan), Southeast Asia (Vietnam, Indonesia, Thailand, Laos, Burma). Customers' continuing purchase volume and full purchase rates fluctuate along with performance for sales to branded customers.

## (2)Tire cord

Sales outlets: Major outlets with shares (Taiwan plant & Dong Nai plant) are shown in the following table:

Area	Year	Taiwan	India	South east Asia	North east Asia	China	The U.S.	Others	Total
Sales share (%)	2024	28	4	46	6	2	6	8	100
	2025	31	5	42	6	3	7	6	100
Explanation	Calculation on yearly basis (Taiwan plant + Dong Nai plant)								

## (3)Functional yarn:

1) Sales outlets: ratio between domestic sales and export and areas are shown in the following table:

Area	Year	Taiwan	Southeast Asia	South America	Others	Total
Sales share (%)	2024	41	42	17	0	100
	2025	76	8	16	0	100
Explanation	Calculation on yearly basis					

2) Traditional yarn accounted for 32% of the sales volume of the cotton weaving plant in 2025, with the remaining 86% for functional yarn. Therefore, developing the functional yarn will create more benefits.

3) Integrate the upstream and downstream business partners to strengthen the development of differentiated products, and focus on the production of functional protective yarn, thereby boosting market competitiveness.

4) Flexibly adjust the product portfolio to align with consumers' ever-changing consumption habits, striving for high-value and refined high-end markets, keeping up edge of Taiwanese cotton yarn manufacturers.

## (4)Special fabric

1) Sales outlets: Major outlets with shares are shown in the following table:

Area	Year	Taiwan	Europe & the U.S.	Asia Pacific	Total
Sales share (%)	2024	7	35	58	100
	2025	8	37	55	100
Explanation	Calculation on yearly basis				

2) Anti-static electricity fabric is shipped mainly to the European and Taiwan market.

3) The main market for flame retardant fabric is Asia-Pacific and the mid-east.

4) The main market for technical fabrics is in Taiwan and Southeast Asia .

## (5)Carbon-fiber composite material

1) The Company's carbon fiber composite material factory is the only

manufacturing plant in Taiwan that is equipped with production facilities of carbon fiber fabrics, epoxy resin prepregs, multi-axial carbon fiber fabrics, and compression molds that can meet the diverse needs of customers.

2) Domestic sales accounts for 71% and 29% for foreign sales. The export areas include Japan, South Korea, Thailand, mainland China, Australia, Canada, Middle and South America and Europe.

(6)Formosa Taffeta gas stations:

1) Market share: There were 106 Formosa Taffeta gas stations as of the end of 2025, whose oil supply volume per station was slightly lower the industry average, with market share reaching 2.8%. Taiwan's gas stations are divided into three groups, stations directly owned by CPC Taiwan (620 stations for 25.0% share); sub-groups of stations run by Formosa Taffeta, Formosa Oil, NPC, Uni-President Smile, Taiwan Sugar, and Shan-loong (each with 70-110 stations); and small-chain or individual stations.

2)Outlook for supply and demand and growth potential on the market: Under the oligopoly of CPC Taiwan and Formosa Petrochemical Corp., supply on the domestic oil-product market is not a problem. In 2025, due to the rising adoption of electric and hybrid vehicles has further impacted fuel sales, which fell short of expectations. Looking ahead to 2026, the Company plans to introduce more diversified payment options, actively develop new service station locations, and vigorously promote the Formosa Petrochemical membership app to enhance customer service and station environments. Through targeted promotional campaigns, fuel sales volume is expected to achieve modest growth. The domestic fuel retail market has long been characterized by an oligopolistic competition between CPC Corporation and Formosa Petrochemical Corporation, ensuring stable supply.

3) Development of competition and countermeasures: Major competitive practices on the gas-station market include price cut, preferential rate for credit-card customers, and preferential charge for car washing, adopted by stations run by large business groups or chain stations in pushing various sales campaigns. As a member of Formosa Plastics Group, Formosa Taffeta gas stations boast the advantages of established brand, quality, systemized operation, availability of self-produced promotional items, preferential treatment for credit-card consumption, and logistics support. Consequently, the company has carved out a solid market share, especially in central and southern Taiwan. Faced with acute competition on the mature market,

Formosa Taffeta gas stations will continue providing preferential rates to customers with cash or co-brand card payment and VIP card holders and pushing personnel training, 5S operation, and TPM management, plus promotion of self-service gas filling, monthly bills for agricultural-machinery and corporate customers, professional car-washing service, use of by-products in sales campaign.

2. Market sharers, demand-supply market outlook, growth potential, competitive edge, favorable and unfavorable factors for business outlook and countermeasures: Refer to aforementioned reports on various products and explanations in IV. business status and I. business reports for shareholders of the pamphlet.

3. Market competitive status and countermeasure

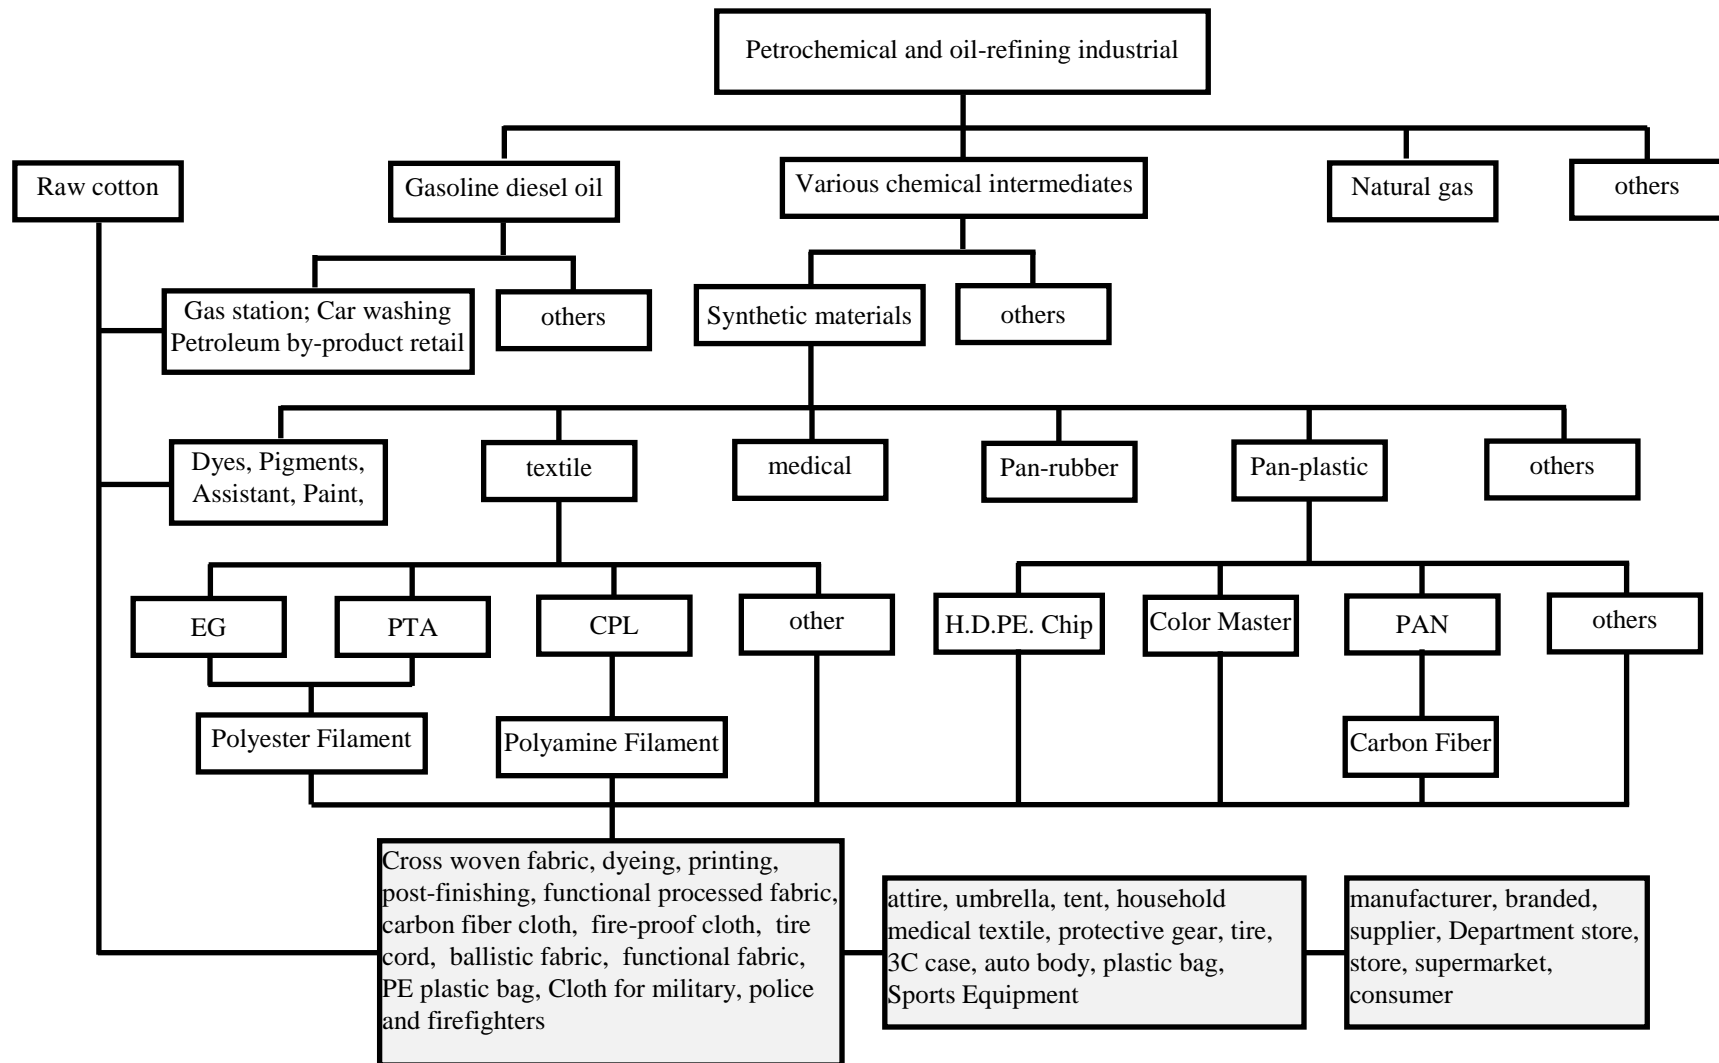

Except the B2C service of gas stations, all other products of the company are B2B Marketing model, for which the company has longstanding customers and enjoys the trust and acclaim of international branded final buyers. In line with the market trends, the company has been endeavoring to develop environmental, new functional and differentiated features products, plus insistence of quality and exploration of emerging markets, products, and customers to strengthen the business operation.

4. Linkage of supply chain

For years, the company has purchased 60% of raw materials from Formosa Plastics Group, without any concern about credit standing and transaction problems, and supplied over 60% of products to reliable longstanding and branded customers, assuring stable business.

Chart of the connection of the company' supply chains for up-, medium- and downstream materials and products

**Textile Industrial Chain of Taiwan**

(B) Major purposes and production processes of various products

1. Major purposes of various products

Product name	Major purposes
Polyamide fabric	Air-permeable raincoat, water-proof air-permeable snow coat, jackets, sleeping bag, down jackets, sportswear, hunting jacket, hat, tent, air mattress, golf umbrella, beach umbrella, wind sail, gloves, and anti-magnetic wave shields, Multifunctional smart clothing such as temperature control, light display, detection and positioning
Polyester fabric	Casual sportswear, ultra thin-fiber clothes, curtain
Cotton fabric, blended fabric, long- and short-fiber interwoven fabric, dyed check	Garment, jacket, shirt, knapsack, medical and sanitary fabric
Tire cord	Various kinds of tire cords, tire chafer, base cloth of conveyer belt, anti-stab fabric of bike tire, lining
PE bag	Shopping PE bag, point-broken roll garbage bag, sanitary bag
Combed cotton yarn, blended yarn	For production of various woven and knitted fabric, cotton and blended woven fabric, long- and short-fiber interwoven fabric, and dyed check
New functional yarn	For production of fabrics for various clothes, bedding, health-related products, casual sportswear, clothes and hats, overcoats, parasol (umbrella), as well as other kinds of woven and knitted fabric
Protective textile	Fire-proof fabric and fabrics for uniform of air-force pilot, tank-operator fatigues, clothes for task-force operatives, firefighter clothes, arc-welding work clothes
Special textile	Clean-room clothes for electronics, foodstuff, and pharmaceutical industries, surgeon clothes, wrapping fabric, anti- bullet and anti-stabbing fabric, helmet, shield, drum paper for speaker, magnetoelastic-wave fabric for stereo equipment
Carbon-fiber composite fabric	Materials for sports equipment, bicycles, motorcycles, autos, aeronautics, 3C products, industrial robotic arms and mechanical structures, construction reinforcements, and wind-turbine blades
Premium diesel oil, 98, 95 Plus, 92 unleaded gasoline, various kinds of engine oil, daily-life	Auto fuel oil, generator oil, lubricants, and maintenance and cleaning products

## (C) Supply status of major raw materials

Dec. 31, 2025

Unit: NT\$1,000

Types of raw materials	Unit	Volume	Value	Main suppliers
Polyamide Tire Cord Filament	Metric ton	12,984	1,113,615	Formosa Chemicals And , Shenma in Mainland China
Polyester Tire Cord Filament	Metric ton	1,716	76,196	Nan Ya Plastics, Lealea Enterprise Co. Ltd.
Polyamide Filament Yarn	Metric ton	10,389	1,041,152	Formosa Chemicals And Chain Yarn
Polyester Filament Yarn	Metric ton	7,312	580,741	Nan Ya Plastics, Lealea Enterprise Co. Ltd.
Additive	Metric ton	16,089	866,056	Formosa Plastics Corp, JINTEX Corporation Ltd.
Sizing Agent	Metric ton	3,887	124,603	Wenhao, Jinqing
Dye	Metric ton	1,214	305,787	Toyota Taiwan, Full Color Co., Ltd.
Greige Fabric	1,000 yards	49,021	1,138,676	Nan Ya Plastics, Li Peng
Formosa Polyolefin	Metric ton	1,228	158,017	W. L. Gore & Associates (Hong Kong) Limited
Raw Cotton, Polyester Cotton	Metric ton	1,564	308,895	Lien Chen Cotton 、Wealth Honor Co., Ltd.

(D) Names of customers/suppliers accounting for over 10% of the procurement (sales) of the company in The two recent years, their values and shares

1. Names of major suppliers for procurements

The company's oil product division has been actively making deployment in oil-product channels and expanding the number of gas stations, in addition to responding to the demands of customers, resulting in the following changes:

Unit: NT\$1,000

Item	2024				2025				as of the first quarter of 2025 (note 2)			
	Name	Amount	%	Relations hip with issuer	Name	Amount	%	Relations hip with issuer	Name	Amount	%	Relations hip with issuer
1	Formosa Petrochemical Corp.	9,614,261	44.40	Stakeholder	Formosa Petrochemical Corp.	8,812,094	54.78	Stakeholder	Formosa Petrochemical Corp.	2,192,470	56.77	Stakeholder

Note 1: Specify the names of suppliers accounting for over 10% of total procurement value, as well as the value and share of procurement. Code names can be used, in case names of suppliers cannot be disclosed, according to contracts, or trading partners are individuals who are not stakeholders.

Note 2: Disclose the latest financial data, as of the date of the publication of the annual report, audited and certified, or reviewed, by certified public accountants for public companies or companies with stocks being traded at offices of securities firms.

## C. Human Resources

Year		2024	2025	Current year as of March 31, 2026
Number of employees	Male	1,446	1,334	1,308
	Female	712	675	670
	Total	2,158	2,009	1,978
Average age		47.1	47.4	48.1
Average length of service		19.0	19.3	19.6
Distribution of Education %	Ph.D.	0	0	0
	Master	2.50	2.69	2.68
	Bachelor	42.40	42.51	42.87
	Senior High School	49.54	49.13	48.79
	Below Senior High School	5.56	5.67	5.66
Note	<ol style="list-style-type: none"> <li>1. Additional employment of 444 foreign laborers, 191 contract laborers, and 1,100 gas-station workers in 2024.</li> <li>2. Additional employment of 454 foreign laborers, 168 contract laborers, and 1,092 gas-station workers in 2025.</li> <li>3. Additional employment of 481 foreign laborers, 168 contract laborers, and 1,084 gas-station workers as of March 31, 2026.</li> <li>4. Statistics of average age and average years of service exclude foreign laborers, contract laborers, and gas-station workers.</li> </ol>			

## D. Information on environmental-protection outlay

(A) In the recent year and as of the date for the publication of the annual report, total value of the loss and handling cost for employee injuries from polluted environment and working environment:

Item	Year	As of March 31, 2026
	2025	
Compensation recipient or handling unit	Competent authority	Competent authority
Compensation value or handling status	NT\$ 0	NT\$ 0
Other loss	0	0
Explanation	There were no violations of environmental regulations in 2025.	

(B) Future countermeasures and possible outlays

1. Current and future improvement measures and countermeasures:

- (1) Carry out the registration operation in compliance with the law
- (2) Use the state-of-the-art control system and technology to reduce pollutants.
- (3) Continue carrying out operations for reducing air pollutants, and improve the operators' abilities.
- (4) Set up the alarm and emergency procedures in case of any emergencies.
- (5) Review the cause of the incident and establish standard operation procedure and implement regular trainings for employees to avoid occurring the same incident.

2. Plan for installation of pollution-abatement equipment within two years

Year Item	2025	2026
Plan to purchase pollution abatement equipment or contents of outlays	<ol style="list-style-type: none"> <li>1. Updated the APH pipelines for LNG low-pressure boilers #3 at the main plant.</li> <li>2. Formosa Taffeta made inquiries about purchasing 310,000 kWh of green electricity as transferred electricity for supply.</li> </ol>	<ol style="list-style-type: none"> <li>1. Added a heat exchanger for LNG low-pressure boiler #3 at the main plant.</li> <li>2. Replaced 300 pcs. of pipes for LNG #2 low-pressure boiler at the plant.</li> <li>3. Procurement of 2.6 million kWh of green electricity from Formosa Taffeta through a power supply transfer.</li> </ol>
Expected improvement	In line with government policy, raise the share of usage of regenerated water, green power, and other green energies, cutting CO <sub>2</sub> emission and waste-water discharge	In line with policy, raise the share of usage of green power and other green energies, cutting CO <sub>2</sub> emission and waste-water discharge
Amount	4,300,000	15,000,000

3. Influence of measures responding to the implementation of EU Restriction of Hazardous Substances Directive (RoHS) on the company's finance:

In line with the spirit of corporate sustainable development, the company has strictly regulated and banned the use of various hazardous substances in production and operation, as a result of which RoHS has no major influence on the company's finance.

4. Environment Policy

(1) Safety, Health, and Environment Policies

- Ensure compliance with relevant safety, health, and environment regulations and other reasonable demands of stakeholders.
- Make good use of the Safety, Health, and Environment Administration System to strengthen pollution prevention and reduce hazardous impacts.

- Promote hazard identification, risk evaluation, and risk control to prevent damage and health hazards.
- Promote energy conservation and reduction to reduce the impacts of environmental damage and hazards to health and safety.
- Strengthen neighboring relationships, establish good communication channels, enforce routine inspections, ensure reviews, and seek continuous improvements.

(2)Measures for reducing greenhouse-gas emission:

Dedicated unit conducts inventory and registration of greenhouse-gas emission and supports pushing of energy conservation and carbon abatement, decreasing CO<sub>2</sub> emission, in line with global environmental-protection trend. In 2025, 96 cases of energy conservation and carbon abatement were completed, reducing CO<sub>2</sub> emission by 1,168 tons/year. In addition, ESG meeting is held to review the performance once per month.

(3)Measures governing air-pollution abatement:

- Reduce pollutants of boilers and process equipment, such as Sox, Nox, VOCs, and dust and install new and effective recycling equipment, to raise pollutant-removal efficiency and reduce emissions.
- Install air-pollution abatement equipment for boiler and process, including static-electricity dust collector, wet-type flue gas desulfurization column, SCR smoke-exhaust denitrating equipment, active-carbon and condensation-nucleus recycling absorber, and heat-storage incinerator.
- Conduct eriodic calibration and inspection of autonomous boiler smoke detection equipment and declaration of air-pollution fee.
- Replace a cleaner energy for boiler fuels to reduce the use of carbon emissions.

(4)Water pollution abatement management measures

The Company applies for discharge approval, formulates measures governing water pollution abatement, according to regulation, and enforces waste-water abatement to a level conforming the standard for waste (polluted) water discharge.

In compliance with environmental-protection law/regulation, the company has installed around-the-clock detection equipment for discharge at waste-water treatment plant, analyzing water quality and recording water volume, which is connected to the website of environment-protection agencies.

(1)Source management for waste water

Pertaining to facilities for waste-water collection, transmission, and advance treatment, formulate regulations on operation, control, and monitoring of waste-water resources, so as to materialize source management for waste-water quality and quantity.

- a. facilities for collection, transmission, and advanced treatment of waste water from process and measurement;
- b.facilities for collection, transmission, and advanced treatment of waste water from daily-life activities and measurement;
- c.properly install separate sewer system;

- d.monitoring of waste-water quality and quantity from various sources;
  - e.purchase low energy-consumption, low-pollution, and high-efficiency cutting-edge production equipment;
  - f.R&D on branded green products;
  - g.improve process to cut fresh-water consumption and install extra water-recycling equipment, to raise recycled-water utilization rate.
- (2)Management of waste-water treatment facilities:
- a.Management of waste-water quality and quantity:
    - a)setup of dedicated unit for managing waste-water treatment facilities;
    - b)application of permission for waste-water discharge and periodic declaration;
    - c)self-management via in-house and outside auditing units;
    - d)commissioning outside unit for help with various application documents and execution of periodic water-quality inspection;
    - e)Measures for installation and maintenance of autonomous CWMS continuous water-quality monitoring system for discharged waste water;
    - f)intensification of the management and control of separated discharge of rainwater and sewage and dismantling of aberrational pipelines by deadline.
  - b.Regulation on the operation and management of waste-water facilities;
    - a)regulation on the operation of waste-water treatment;
    - b)regulation on the discharge of waste water;
    - c)recording of waste-water treatment and online declaration;
    - d)declaration for water-pollution fee;
    - e)sludge treatment;
    - f)abnormality reporting;
    - g)monitoring of waste-water discharge and online connection.
  - c.Rainwater management: Inspection, maintenance, and operation of rainwater discharge pipe and rainwater channel and lock gate in public area and installation of separate sewer systems at head plant and second plant.
  - d.Recycling water system for weaving and dyeing process to improve the recycling water ratio.

#### 5.Waste management measures:

For recycling and reuse of resources, it is necessary to control waste disposal and reduce and classify waste in process before outsourcing waste disposal legally, with major management measures listed below:

##### (1)Waste classification and storage:

Wastes are classified into common trash, process wastes, and engineering wastes for separate storage before calculation of amount for registration and declaration. Storage containers must be in good shape, without filth, corrosion, leakage, or deformation and kept at sites with water

(rain)-proof facilities and treatment facilities and labeling for waste water and foul gas. Sludge must be dried to cut water content before outsourcing for disposal.

(2)Waste disposal and treatment:

To assure legal reuse of final disposal of all wastes, pertinent management systems include:

- a.formulate (revise) and update waste disposal plan according to law/regulation;
- b.set up data on waste-disposal contractors;
- c.standard procedure to assure completion of online waste declaration;
- d.management of waste disposal plan to assure conformance of factory wastes to declaration data, in terms of items and quantity. In addition, for tracking the destination of wastes, require contractors to formulate procedure for tracking the progress of waste disposal, in conjunction with online declaration, plus spot check of waste-transport vehicles and requirement for contractors to provide online declaration documents when applying for disposal fees, to prevent illegal disposal of wastes.

6. Toxic and concerned chemical substances control measures

The company has formulated "toxic and concerned chemical substances control measures," managing the operation of toxic and concerned chemical substances, so as to assure operational safety, avoid environmental pollution, and comply with legal requirements.

Related management and preventive measures:

- (1)In addition to mandatory online reporting on purchase, usage, and storage of toxic and concerned chemical substances, strictly control storage volume, to cut hazard risk.
- (2)Containers and packages should bear clear labels and there should be various warning notices or signs in usage or storage areas.
- (3)Regular detailed inspection of emergency response devices with checklist, to assure the good operating status (including calibration and testing by outside firms)
- (4)There should be bank preventing overflow in the storage area.
- (5)Train on-site people to be familiar with the operation of various production equipment and standard operating procedure for handling toxic and concerned chemical substances.
- (6)Arrange regular education and training courses on toxic substance hazard for on-site people, to augment hazard response concept.
- (7)Regular training and drill: Carry out two tests on response to toxic chemical substance accident without advance alert and one drill on response to toxic chemical substance accident every year.

7.Energy conservation and carbon abatement measures, inclusion of carbon credit into the company's carbon abatement planning:

The company has been pushing energy conservation and carbon abatement measures for years, including improvement of process to cut energy consumption, energy recycling and reuse, substitution of high-efficiency motors, installation of inverters, substitution of energy-saving lighting, waste-heat recycling and reuse, enhancement of equipment efficiency, as well as other energy management and conservation measures.

## **E.Labor-management relationship**

(A) The company's various employee benefits, study and training, retirement system, plus execution status, as well as labor-management agreements and measures upholding labor rights and interests:

### 1.Employee benefit measures

#### (1)Leave benefit

Provision of various leaves for employees, including special leave, marriage leave, funeral leave, official leave, work-related injury leave, maternity leave, election leave, sick leave, menstrual leave, personal leave, family-care leave

#### (2)Insurance benefit

Arrangement of the coverage of labor insurance and national health insurance for employees according to the law

#### (3)Retirement benefit

Monthly appropriations for labor retirement fund and labor retirement reserve fund, in preparation for retirement-fund payment for employees upon their retirement according to the law.

#### (4)Marriage and child-rearing benefits

a.Gift of cash for marriage or death of employees or relatives and subsidies for managerial staffers for the provision of such gift of cash.

b.Installation of nursery room, for breastfeeding by employees during work time

c.Provision of leave of absence for baby care, available for application by employees.

d.Provision of maternity and childbirth gifts, childbirth subsidies, and monthly childcare allowances for employees until their children reach the age of six.

e.Implemented the Maternal Health Protection Program for female employees, with on-site physicians conducting health education consultations for pregnant employees.

#### (5)Health-care benefit

a.Regular physical examination for certain employees mandated by law every year.

b.For factory workers exposed to noise and other hazards to health, arrange special physical examination and carry out graded health management. The participation rate for the examination has been 100% in past years.

c.Subsidies for employees and relatives receiving treatment at Chang Gung Memorial Hospital, which also offers discounts for employees and relatives taking physical examination there, provision of health and hygiene information irregularly, and organization of lectures on health issues in factory premise.

d.Establishment of medical room and full-time medical care staffers in the factory premises, and organization of health-care events irregularly, including health and weight management, promotion of quitting smoke, cancer screening, and disease prevention and health care.

e.Installation of Automated External Defibrillator (AED) in the plant.

f.To promote employee health and prevent chronic diseases such as obesity and the three highs (hypertension, hyperglycemia, and hyperlipidemia), the company organized a voluntary weight

loss program for employees from September 1 to December 31, 2025.

- Participants: Primarily employees with a BMI over 27; those with a BMI between 24 and 27 were encouraged to join.
- Weight Loss Incentives: The top five participants received cash prizes of NT\$3,500, NT\$3,000, NT\$2,500, NT\$2,000, and NT\$1,500, respectively.
- Results: A total of 32 employees registered, with 31 successfully losing weight. On average, each participant lost 1.41 kilograms. The top performer lost 6.5 kilograms.

(6)Daily-life benefits

- a.Provision of gift of cash for birthday, Labor Day, and Mid-Autumn Festival.
- b.Planning and subsidy for such activities as employee travel and year-end dinnery party.
- c.Installation of employee restaurant, dormitory for singles, and convenience stores in factory premises.
- d.Provision of scholarship for employees' children.
- e.Arrangement of designated stores where discounts are available.
- f.Setup of corporate kindergarten.
- g.Subsidy for purchasing or changing electric scooters.

(7)Employee restaurant

- a.Subsidy for employees' meals daily
- b.Two times of extra dishes every month and employees on duty during Spring Festival

(8)Promotion of employee relationship

- a.Subsidy for activities of employee associations
- b.Organization of sports contents to encourage sports hobbies among employees.
- c.Awarding staffers with excellent performance with citation certificates or prizes.

(9)Personal and family care

- a.Provision of work clothing or money for work clothing every year.
- b.Setup of employee mutual assistance committee, with regular corporate contribution, providing grants to employees for marriage, death, disablement, child birth, and medical treatment, as well as death, medical treatment, marriage of family members, and education loans for children, according to measures of the committee.
- c.Compensation for death of employee according to death compensation measures.

2.Employee study and training

The company has regarded employee education and training highly, with its training system including pre-job training for newcomers, job-related basic training, job-related professional training, and training for managerial candidates. Annual education and training plan has been formulated and executed, plus evaluation of the results. Moreover, to facilitate internationalization of operation, language training has been held.

3.Retirement system

(1)Application for retirement

- a. Age 55 or higher with over 15 years of service
- b. Over 25 years of service, regardless of age
- c. Age 60 or higher with over 10 years of service

(2) Mandatory retirement

- a. Age 65 or over
- b. Unsuitable to job, due to mental or physical disability

(3) Options for retirement payment

- a. Employees with the starting year of service before June 30 2005 has the option of choosing the retirement payment, calculated according to the "Labor Standards Act." For those who chose the retirement payment calculated according to the "Labor Pension Act" before June 30, 2010, the retirement payment for the portion of service years covered by the act will be calculated according to the stipulations of the act, with the retirement payment for the previous service years still being calculated according to the "Labor Standards Act." For service years covered by the "Labor Pension Act," the "Labor Standards Act" is not applicable.
- b. Employees joining the company after July 1, 2005 are all subject to the stipulations on retirement payment of the "Labor Pension Act."

(4) Calculation criteria for retirement payment

- a. Retirement payment is calculated by multiplying the average pay in the six months before retirement with base number, at maximum of 45, calculated according to article 55 of the "Labor Standards Act."
- b. Employees mandated to retire due to job-induced mental or physical disability are entitled to 20% markup on retirement payment calculated according to "Labor Standards Act."
- c. For employees covered by the Labor Pension Act," the company would appropriate 6% of their monthly pays for deposits into their personal

(5) Application method for retirement

- a. Retirement applications must fill out two copies of "voluntary (mandatory) retirement application form," to be submitted, along with proof documents, to superiors for approval.
- b. For mandatory retirees, the retirement application form would be filled out by the human-resource department.

4. Status of the execution of employee benefit measures and retirement system: good

The aforementioned employee-related measures have been executed faithfully, with good results. In addition to regular provisions for new and old retirement funds every month, the company examines the balance in the account of labor retirement reserve fund at the end of every year, to assure the amount is sufficient to cover retirement payments in the coming year. The number of retirees in 2025 reaches 121.

5. Status of labor-management agreement: good

- (1) Labor-management meeting has been convened periodically, when labor and management representatives would discuss a wide range of issues, including labor-management relationship, promotion of labor-management cooperation, improvement of labor conditions, planning for

labor benefits, and improvement of work efficiency.

(2) Formulate work rule and personnel management rule, setting definite regulations on the rights and obligations of laborers and management, to help employees understand and uphold their rights and interests.

(3) In line with legal requirements for labor safety, conduct physical examination for employees regularly, institute staffers in charge of labor safety and hygiene, and formulate various rules governing labor safety and hygiene, so as to prevent accidents and disasters and uphold employee safety.

#### 6. Status for upholding various labor rights and interests: good

Based on the spirit of safeguarding employees' work rights and interests, set up integrated manpower mechanism, featuring job reassignment rather than layoff during business slowdown, which would be conducted after oral notice and according to set procedure. The company complies strictly with domestic and foreign norms on labor and human rights and institute a mechanism for regular communications with employees, notifying employees business changes with possible major consequences and treating all employees fairly, including:

(1) Formulate labor conditions according related labor laws/regulations.

(2) In line with the "Employment Service Act," provide job opportunities to all job seekers in an open, fair, and just manner.

(3) Set up multiple channel for complaints by employees on infringement on or improper handling of their rights and interests.

(4) Set up reward and punishment committee, consisting of various senior managers, for discussion and resolution on proposals of major rewards and punishments, for which related employees can appeal within seven days after publication.

(5) Promote prevention of sexual harassment, formulate "measures against sexual harassment," and provide channels for complaints by employees on the issue.

(6) Formulate "measures governing handling of complaints by internal and external stakeholders," offering smooth channels for complaints by internal and external stakeholders (including employees) on improper and unfair treatment or encroachment on rights or interests. Complaints expressed via such channels, including complaint box, dedicated complaint phones, and complaint e-mail address, are handled promptly. Employees can also put forth proposals at regular labor-management meetings and the meetings of employee benefit committee, an arrangement which can promote a harmonious labor-management relationship and contribute to the company's sustainable development. Complaint boxes are installed at spots frequented by employees, enabling employees to request assistance for job- or daily life-related problems, which are handled by designated staffers.

(B) Loss caused by labor-management disputes in the recent year and as of the date for the publication of the annual report

#### 1. Status of labor-management disputes

Loss resulting from labor-management disputes in the recent year and as of the date for the publication of the annual report: nil

2.Value of loss: nil

3.Anticipated loss in the future

Given good labor-management relationship, as evidenced by rare labor-management disputes, it is predicted that chance for loss resulting from labor-management dispute in the future is slim.

4.Countermeasures:

Given increasing labor-right awareness, plus respect for labor dignity, confrontation can only be removed via intensified communication. As a result, the company has been striving to understand the opinions and employees' needs through various methods and channels. To ward off possible disputes, in case of revision of law/regulation and government policy, the company has communicated and coordinated with labor union, to attain consensus, in addition to revising corporate regulations accordingly.

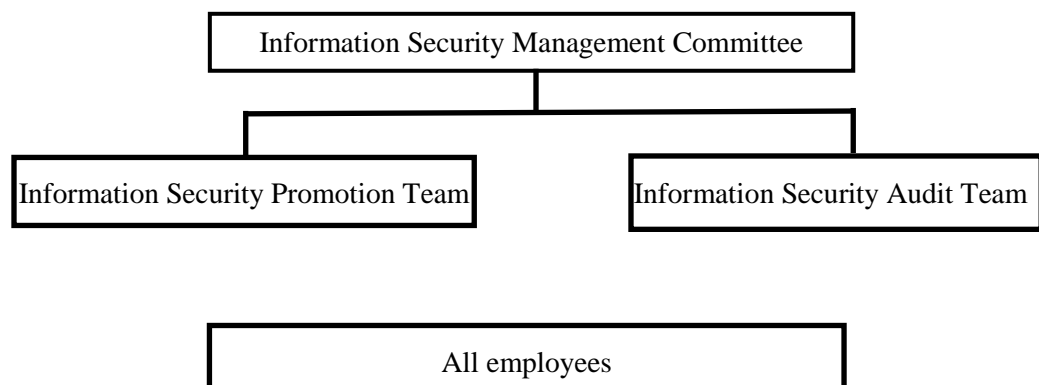

## **F.Information and Cyber Security Management**

1.The policies and specific management schemes on cyber security formulated and resources invested in the management of cyber security by the Company:

(1)The structure of the information security management:

The Company has established Information Security Management Regulations applicable to all employees, with a dedicated information security department responsible for managing daily cybersecurity operations. To effectively promote information security initiatives, the Company has also established an Information Security Management Committee to oversee the direction and strategies of information security development, ensuring the continuous and stable operation of the information security management system.

The convener of the aforementioned committee is a senior executive at the first management level, while the chairperson serves as the Company's Chief Information Security Officer (CISO). Under the committee, an "Information Security Promotion Team" and an "Information Security Audit Team" have been established. In addition, at least one management review is conducted annually. The scope of the review includes the evaluation of improvement plans and change requirements for the information security management system, ensuring its suitability, adequacy, and effectiveness.

(2)Information security policy:

- Comply with legal requirements and promote information security awareness.
- Attach importance to risk management and protect data security.
- All employees are required to participate and pursue continuous improvement.

(3)Information Security Control Measures:

<b>Item</b>	<b>Management Measures Description</b>
Network Security	<ul style="list-style-type: none"><li>• A multi-layered in-depth framework, firewalls, intrusion prevention systems (IPS)</li><li>• advanced persistent threat defense (APT) are being adopted to prevent malicious attacks from external networks.</li><li>• Added network equipment for traffic monitoring, with system log analysis, real-time abnormality alerts, and emergency response to reduce threats and risks."</li><li>• VPN remote access secured with two-factor authentication to ensure a safe connection.</li></ul>
Privileged Account Management	<ul style="list-style-type: none"><li>• Privileged accounts are inventoried and managed to ensure their security.</li><li>• Passwords must be changed regularly, with length and complexity complying with defined policies.</li></ul>
Device Security	<ul style="list-style-type: none"><li>• All computers must have antivirus software installed, and USB device access is strictly controlled.</li><li>• Virus definitions and security patches are updated in real time; regular virus scans are scheduled.</li><li>• Management of digital signage devices in public areas is strengthened.</li></ul>
Application Security	<ul style="list-style-type: none"><li>• Web Application Firewall (WAF) is deployed for external-facing websites to safeguard against security threats.</li><li>• Application control (APCL) mechanisms are set to restrict connections to external services.</li><li>• Regular vulnerability scanning and penetration testing are conducted to prevent system exploitation by malicious actors.</li></ul>
Data Security and Protection	<ul style="list-style-type: none"><li>• Internet access, email, and personal/sensitive data leakage are controlled via DLP mechanisms.</li><li>• Secure access policies are established, with enhanced user authentication for system logins.</li></ul>
Training and Awareness	<ul style="list-style-type: none"><li>• Annual cybersecurity training and assessments are provided for all employees.</li><li>• Employee awareness of email-based social engineering is reinforced through regular drills and awareness programs.</li></ul>
Cybersecurity Testing	<ul style="list-style-type: none"><li>• Regular red team/blue team cybersecurity exercises are conducted with external experts.</li></ul>

(4)Resources invested in information security management:

- Appoint the chief of information security, set up a dedicated information security management unit and allocate information security personnel.

- Joined the Taiwan Computer Emergency Response Team/Coordination Center (TWCERT/CC) to strengthen cybersecurity intelligence sharing and enhance incident response capabilities.
- Conducted annual Business Continuity Management (BCM) exercises; in 2025, three key systems were tested, with results meeting expected objectives.
- Reviewed privileged accounts for core server operating systems, application systems, database management systems, and cybersecurity protection systems; as of 2025, over 80 accounts have been brought under centralized management.
- Annual red team/blue team penetration testing exercises are conducted in collaboration with third-party vendors. All vulnerabilities identified during the exercises have been fully remediated (100% resolution rate).
- In June 2025, the Douliu Data Center successfully passed the ISO 27001:2022 surveillance audit. The validity period is from July 22, 2025 to August 29, 2026.
- Website and system vulnerability scans are performed annually, with remediation actions taken to address identified weaknesses.
- A Web Application Firewall (WAF) is deployed for external-facing websites to safeguard against security threats.
- A Security Information and Event Management (SIEM) system and a Security Operations Center (SOC) platform are implemented to ensure compliance with regulatory requirements.
- Annual email-based social engineering drills are conducted, involving over 1,000 employees. In the 2025 exercise, the employee misclick rate was 2.94%, and employees who clicked the malicious emails completed email cybersecurity awareness training.
- Information security awareness training is provided annually. In 2025, over 2,000 training sessions (in-person and online) were completed to enhance employee awareness of information security management.
- Network traffic monitoring and log analysis systems have been deployed to collect and analyze log data, thereby mitigating risks associated with system operations.
- Implemented account management for vendors performing remote maintenance operations, and monitored and recorded the activity logs of vendors' remote maintenance activities.
- Implemented internal network segmentation to prevent lateral movement of attacks, reduce the attack surface, and minimize the spread of potential incidents.
- When connecting via VPN, a second-factor authentication is implemented to mitigate phishing attacks or the use of forged login credentials.

2. If the possible impact and countermeasures caused by a major information security incident cannot be reasonably estimated, the fact that it cannot be reasonably estimated should be stated: The company has not had any major information security events in the most recent year and as of the date of publication of the annual report.

## **G.Important contracts: nil**

## V. Financial status, review and analysis of management performance, and risk items

### A. Review and analysis of financial status--consolidated financial report

The reasons for, and impact of, any significant changes in assets, liabilities, or equity over the two most recent fiscal years (where the change exceeds 20% and the amount exceeds NT\$10 million). Where the impact is significant, the company should also describe its future response plan.

Unit: NT\$1,000

Item \ Year	2025	2024	Difference		
			Amount	%	Explanation
Current assets	14,605,708	15,290,355	-684,647	-4.48	-

## B. Review and analysis of management performance

(A)Comparative analysis of management performance--consolidated financial report

Unit: NT\$1,000

Item \ Year	2025	2024	Increase (decrease)	Change (%)
Sales revenue	27,543,789	28,715,705	-1,171,916	-4.08
Operating costs	24,462,984	25,643,868	-1,180,884	-4.6
Net operating margin	3,080,805	3,071,837	8,968	0.29
Operating expenses	2,339,094	2,411,256	-72,162	-2.99
Operating profit	741,711	660,581	81,130	12.28
Non-operating income and expenses	320,112	992,986	-672,874	-67.76
Profit before tax	1,061,823	1,653,567	-591,744	-35.79
Income tax expense	196,573	163,382	33,191	20.31
Profit for the year from continuing operations	865,250	1,490,185	-624,935	-41.94
(Loss) profit from discontinued operations	-	-	-	-
Profit for the year	865,250	1,490,185	-624,935	-41.94

Explanation for analysis of change in share:

1. Non-operating income and expenses in 2025 decreased by NT\$ 672,874 thousand compared with 2024, which is mainly due to the decrease in dividend income of NT\$ 450,194 thousand, an increase in foreign exchange gains of NT\$ 319,881 thousand, and other income of NT\$ 90,961 thousand.
2. Profit in 2025 increased by NT\$ 624,935 thousand compared with 2024, which is mainly due to the decrease in profit before tax of NT\$ 591,744 thousand.

(B)Sales volume forecast and the basis therefor, and describe the effect upon the company's financial operations as well as measures to be taken in response: Please refer to 2026 Business Plan of I. Report to Shareholders.

## C. Cash flow:

Describe and analyze any cash flow changes during the most recent fiscal year, describe corrective measures to be taken in response to illiquidity, and provide a liquidity analysis for the coming year.

(A) The analysis of change in cash flow in 2025

Unit: NT\$1,000

Cash balance beginning of year	Net cash flow from Operating in the year	Cash outflow in the year	Cash balance (shortfall)	Remedy for cash shortfall	
				Investment plan	Financing plan
3,524,678	2,557,143	2,854,765	3,227,056	-	-

- (1) Business activities: Net cash inflow from operating activities in the current year reached to NT\$ 2,557,143 thousand mainly due to the operating benefits (excluding depreciation and investment benefits recognized by the equity method) of NT\$ 2,333,615 thousand, decreased in payable (outflow) NT\$ 66,504 thousand, an increase in other receivables (outflow) of NT\$ 150,466 thousand, and decrease in inventory (outflow) NT\$ 465,088 thousand.
- (2) Investment activities: Net cash outflows from investment activities in the current year amounted to NT\$ 817,837 thousand, mainly due to purchases of real estate, plant and equipment prices (outflow) of NT\$ 765,775 thousand, and increase in investments accounted for using the equity method (outflow) of NT\$ 85,646 thousand.
- (3) Fund-raising activities: Net cash outflow from fund-raising activities during the year was NT\$ 1,866,241 thousand, which is mainly attributable to cash dividend payments (outflow) of NT\$ 1,443,455 thousand, repayment of lease principal (outflow) of NT\$ 171,939 thousand, and a decrease in short-term borrowings (outflow) of NT\$ 250,308 thousand.

## (B) Remedial Actions for Liquidity Shortfall

- (1) As a result of positive operating cash flows and cash on-hand, remedial actions are not required.
- (2) Analysis of cash flow in the coming one year

Unit: NT\$1,000

Cash balance beginning of year (1)	Expected Net cash flow from Operating in the year (2)	Expected cash outflow in the year (3)	Expected cash balance (shortfall) (1)+(2)-(3)	Remedy for expected cash shortfall	
				Investment plan	Financing plan
3,227,056	2,682,039	2,611,487	3,297,608	-	-

- (1) Business activities: It's expected that net cash inflow from operating activities in 2026 is NT\$ 2,682,039 thousand due to the stable operating benefits.
- (2) Investment activities: It's expected that net cash outflows from investment activities in 2026 amounts to NT\$ 961,832 thousand, mainly due to the increase in purchases of real estate, plant and equipment prices.
- (3) Fund-raising activities: It is expected that net cash outflow from fund-raising activities in 2026 is NT\$ 1,649,655 thousand, mainly due to the repayment of long-term loans and cash dividend payments.
- (4) It's expected that the operating cash flows and cash on-hand, remedial actions are positive in 2026.

## D. Influence of major capital outlays in the recent year on finance and business

(A) Status of major capital outlays and funding sources

Unit: NT\$1,000

Projects	Actual or planned source of capital	Actual or planned date of completion	Total capital in need	Actual or anticipated fund utilization							
				2025	2026	2027	2028	2029	2030	2031	2032
Replacement of old machines with new ones setup of new gas stations equipment from 2025	Cash and income generated from the company's operation, with the remainder from banking loans	2026.12.31	253,339	221,854	31,485	-	-	-	-	-	-
Replacement of old machines with new ones and setup of new gas stations equipment from 2026	Cash and income generated from the company's operation, with the remainder from banking loans	2027.12.31	137,062	-	131,691	5,371	-	-	-	-	-

(B) Anticipated benefits

Anticipated contribution to production and sales volume and value, as well as gross profit

NT\$1,000

Year	Item	Production volume	Sales volume	Amount of Sales	Gross profit
2026	Special fabrics	286,774 yards	-	5,621	3,907
	Coned Yarn	130 tons	-	30,593	7,673
	Sales of gasoline	The four gas station delivered 3,671 kiloliter	-	98,390	9,663
2025	Sales of gasoline	The two gas station delivered 2,983 kiloliter	-	79,075	9,757

## E. Reinvestment policy, major reasons for profit or loss, improvement plan, and investment plan in the coming year:

According to 2025 Parent company only financial statement, the share of profit of associates and joint ventures accounted for using equity method amounted to NT\$ 580,010,000, Overall profitability rebounded significantly, mainly attributable to downstream customers' inventory adjustments having returned to healthier levels, which drove a gradual recovery in market demand and improvement in order momentum, thereby enhancing equipment utilization rates and overall operating efficiency. However, affected by unfavorable factors such as slowing global economic growth and tariff policies, end-market consumer demand remained relatively moderate, and the pace of market recovery continued to be cautious.

In response to the gradual recovery of the industry cycle, the Company will continue to optimize its investment portfolio, deepen cooperation with strategic partners, and accelerate the deployment of its global supply chain and integration of regional operations in order to capture growth opportunities across various markets. From an operational strategy perspective, the

Company will continue to promote product differentiation and value enhancement, focusing on high-performance and environmentally friendly material applications to strengthen product added value and market competitiveness.

In terms of smart manufacturing, the Company will accelerate the introduction of AI, AOI inspection technologies, and advanced automation equipment to promote the digitalization and intelligent upgrading of manufacturing processes. These efforts aim to comprehensively improve production efficiency, quality stability, and delivery responsiveness, further expanding order acquisition advantages and strengthening economies of scale.

With regard to sustainable development, the Company will continue to advance energy conservation and carbon reduction initiatives, renewable energy adoption, and water resource recycling in order to establish a low-carbon manufacturing system that meets the green supply chain requirements of international brand customers and transforms sustainability efforts into market competitive advantages. At the same time, supply chain management will continue to evolve toward higher integration and resilience, strengthening raw material control capabilities and expanding the application of recycled and environmentally friendly materials.

Looking ahead to the coming year, the Company will adopt an investment strategy that balances proactiveness with prudence, continuing to increase investments in key areas such as smart manufacturing, green transformation, and high value-added products. The Company will also carefully evaluate investment opportunities with strategic synergies in order to expand operational scale, enhance profitability, and further strengthen overall competitiveness and long-term growth momentum. For future product R&D and related investment plans, please refer to page 149 of the Company's Annual Report.

## **F. Risk items**

(A)Influence of changes in interest rate and exchange rate and inflation on the company's profit and future countermeasures:

### 1. Interest rate:

In terms of long-term liabilities under floating interest rate basis (corporate bond included), the Company will carefully assess financial market conditions and consider the implementation of interest rate swap when the interest rate is relatively low to avoid interest rate fluctuation risks. The company strives to make sure the undertaking interest rate is below the estimated cost of capital of investment plans.

### 2. Change of exchange rate:

Insufficient foreign exchange funds in daily operations are addressed by making spot or forward foreign exchange purchases when the exchange rate is favorable. Long-term foreign exchange liabilities are addressed by implementing long-term forward foreign exchange contracts or exchange-for-exchange contracts when the exchange rate is relatively low to minimize the impact of exchange rates on profitability.

### 3. Inflation

According to the Directorate of Budget, Accounting and Statistics, Executive Yuan, the annual growth rate of consumer prices in 2025 was 1.66%, fell below 2% for the first time in the past three years. The core consumer price index rose by 1.66%. There was no significant impact on the company's profit and loss in 2025. The inflation outlook for the coming year will depend on the extent of domestic electricity price adjustments and the global political and economic situation.

(B) Policy for engagement in high-risk, high-leverage investments, loan extension, endorsement and guarantee, and derivatives, major reasons for profit or loss, and countermeasures in the future:

#### 1. High-risk, high-leveraged investments:

The company engages mainly in textile, gas stations, which are mature and stable industries, with low risk. With stable business management and sound finance, the company shuns high-leverage investments.

#### 2. Loan extension

Proposal for loan extensions by the company must be passed by the board of directors and approved by shareholders' meeting, according to "measures for extension of loans to others." Up to now, the company has not extended any loan to others. In the future, loans will be only extended to affiliates for fund maneuvering and in compliance with "measures for extension of loans to others."

#### 3. Endorsement:

The company's operating procedure for provision of endorsement and guarantee is based on "operating procedure for endorsement and guarantee," which has been approved by the board of directors and agreed by shareholders' meeting. In principle, endorsement and guarantee are extended only to parent company, subsidiaries, affiliates with business linkage, or joint ventures at an extent proportionate to the share of the company's contribution. The company has never incurred loss from endorsement and guarantee, mainly on loans, due to sound finance and stable business of affiliates.

#### 4. Derivative Product Transactions:

The company's engagement in trading in derivatives is for hedging market risks caused by fluctuation of exchange rates and interest rates, instead of arbitrage and speculation. Such trading is carried out according to the company's "procedure for engagement in trading in derivatives," as well as related domestic laws and regulations and IFRS (International Financial Reporting Standards).

(C) Future R&D plan and expected R&D expenses (2026)

R&D items and new R&D equipment	Expected input for R&D (Unit: NTS1,000)
1. Development of electrospinning nanofiber membrane and waterproof, moisture-permeable, and breathable fabric	32,000
2. Development of eco-friendly composite-yarn high-stretch fabric	14,000
3. Development of T400 eco-friendly high-stretch fabric	15,000

4. Development of eco-friendly cotton-like spandex stretch fabric	13,000
5. Development of nylon 66 eco-friendly DTY high-stretch fabric	15,000
6. Development of airbag recycled nylon 66 FDY composite cross-section fashion fabric	16,500
7. Development of eco-friendly anti sweat-mark fabric	17,000
8. Development of highly breathable prefprated stretch seersucker fabric	16,500
9. Development of ultralight ocean-waste recycled nylon fabric	15,000
10. Development of cotton-like recycled nylon stretch fabric	13,000
11. Development of fabrics with enhanced functions and special appearances	10,000
12. Development of eco-friendly PET single-material functional fabric	18,000
13. Development of wash-durable wet PU coated fabric	6,000
14. Development of wash-durable water-repellent antistatic fabric	12,000
15. Taiwan Textile Federation (TTF) collaboration project	12,000
16. Development and production of Aramid bead rings	2,400
17. Development of aramid curtains and puncture-resistant fabrics	4,800
18. Design and development of a one-bath impregnation machine for the secondary treatment of aramid curtains and puncture-resistant fabrics	4,800
Total	237,000

(D) Risk Impact and Mitigation Efforts Associated with Changes in the Government Policies and Regulatory Environment:

The Company closely monitors all domestic and foreign governmental policies and regulations that might impact the Company's business and financial operations and arranges personnel to receive professional training as needed. During the period of 2025 to January 31, 2026, the following changes or developments in governmental policies and regulations may influence the Company's business and financial operations:

1. The United States has imposed a 10% baseline tariff globally, along with additional reciprocal tariffs on certain countries and regions, impacting the global economy. Currently, Taiwan's exports to the U.S. are subject to a non-cumulative tariff rate of 15%, excluding reciprocal tariffs. In response, the Company will accelerate market diversification and strengthen its global presence to address these challenges.
2. Except the bill mentioned above, no other regulations or acts have a significant financial impact on the Company.

(E) Influence of technological and industrial changes on the company's finance and business and countermeasures: There is no technological changes with major influence on the company, since the company belongs to an industry with mature technology. For the risks and countermeasures of information and cyber security, please refer to page 141 for detailed information.

(F) Influence of change in corporate image on corporate crisis management and countermeasures: Adhering to the management concept of "diligence and down-to-earth style, quest for perfection, sustainable development, and contribution to society," the company has established a good corporate image and will insist on the concept for further progress, in order to make even bigger contribution to the society.

- (G) Expected benefits from acquisition, possible risk, and countermeasures: nil.
- (H) Expected benefits from factory expansion, possible risk, and countermeasures: Evaluation shows that there is no major risk for factory expansion.
- (I) Risk for concentration of purchase or sale and countermeasures:
- 1.Purchase: The company's major raw materials, including tire-cord filament, PU filament, and polyester filament are mainly supplied by affiliates Formosa Chemicals & Fibre Corporation and Nan Ya Plastics Corp. in abundant volume, without any risk of shortage.
  - 2.Sales : In 2025, the ratio between domestic sale and export of the company was 56.32% and 43.68%. Major exported products are long- and short-fiber fabric, tire cord, and PE bag, shipped mainly to contracted customers in Southeast Asia, Hong Kong, China, India, Japan, and South Korea, while major products for domestic sales are long- and short-fiber fabric, tire cord, special fabric, and oil products. Given diversification in markets and customers, related risk is low.
- (J) Influence and risk of massive share transfer by directors, supervisors, and major shareholders with over 10% shareholding and countermeasures: nil.
- (K) Influence and risk of change in management right and countermeasures: nil.
- (L) List major litigations, non-contentious cases, administrative litigations, including those with settled ruling or still in progress, involving the company and the company's directors, supervisors, president, actual responsible person, major shareholders with over 10% shareholding, and subordinated companies, whose outcomes may have major influence on shareholders' equity or security prices. Disclose the facts of the contentions, values of targets, starting dates of litigations, major parties involved, and status of handling as of the date of the publication of the annual report:
- 1.Taiwan Cooperative Bank Co., Ltd. (hereinafter referred to as TCB) filed a civil lawsuit against the Company with the Taipei District Court in September 2019. TCB claimed that the former employees of the Company colluded with New Site Industries Inc. (hereinafter referred to as New Site) and New Brite Industries Inc. (hereinafter referred to as New Brite) to make false statements. TCB was misled with the fact that New Site and New Brite has accounts receivable due from the Company, causing damage to TCB. Therefore, TCB claimed that the Company should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal behavior of the former employee. On October 29, 2024, the Taiwan High Court ruled in the second instance that former employees and the Company are jointly liable to compensate Taiwan Cooperative Bank Co., Ltd. in the amount of NT\$290,657 thousand and the requested interest. Based on legal opinions, Based on the legal opinion, the judgment of the second instance did not consider the material defense proposed by the Company and clearly did not consider the proportion of responsibility. After receiving the letter of judgment, the Company filed an appeal for the third instance on December 13, 2024. The Supreme Court set aside the judgment of the second instance and remanded the case to the High Court on November 19, 2025. The case is currently pending

notification of the court hearing. At present, it is not possible to determine the results of the case and the financial impact. The Company has engaged a lawyer to submit a favorable defense to protect the Company's rights and interests.

2. DBS (Taiwan) Commercial Bank Co., Ltd. (hereinafter referred to as DBS) filed a civil lawsuit against the Company and Formosa Taffeta Dong Nai (hereinafter referred to as the Formosa Dong Nai), a subsidiary of the Company with the Taipei District Court in September 2019. The former employees of the Company and Formosa Dong Nai colluded with New Site Industries Inc. (hereinafter referred to as New Site) to make the false statements. DBS was misled with the fact that New Site has accounts receivable due from the Company and Formosa Dong Nai, causing damage to DBS. Therefore, DBS claimed that the Company should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal behavior of the former employee. In its adjudication dated December 30, 2022, the Taipei District Court has rejected the claims filed by DBS. Consequently, DBS filed an appeal in January 2023. The ultimate outcome of the appeal and amount of the lawsuit cannot presently be determined. However, the Company and Formosa Dong Nai have engaged lawyers to submit a strong defense to protect the Company's rights and interests.
3. O-Bank filed a civil lawsuit against the Company and Formosa Taffeta Dong Nai (hereinafter referred to as the Formosa Dong Nai), a subsidiary of the Company with the Taipei District Court in February 2020. The former employees of the Company and Formosa Dong Nai colluded with I Chin Young Inc. (hereinafter referred to as I Chin Young) to make false statements. O-Bank was misled with the fact that I Chin Young has accounts receivable due from the Company and Formosa Dong Nai, causing damage to O-Bank. Therefore, O-Bank claimed that the Company and Formosa Dong Nai should be jointly and severally liable with the obligation of indemnity. However, this case arose purely as a result of the personal behavior of the former employee. In its adjudication dated February 10, 2023, the Taipei District Court has rejected the claims filed by OBank. O-Bank filed an appeal, and on May 20, 2026, the Taiwan High Court rendered a judgment partially in favor of O-Bank's claims. As the Company has not yet received the written judgment, it is currently unable to assess the possible outcome of the case or the amount of potential impact. Upon receipt of the written judgment, the Company will discuss the matter with its legal counsel and file a third-instance appeal in order to protect the Company's rights and interests.

(M) Other major risks and countermeasures: Nil

**E. Guidelines for Ethical Conducts of the Company's Directors, Supervisors and Managerial Staffers**

revised by the board of directors on June 23, 2017

**Chapter 1 General rules**

**Article 1:** The guidelines are formulated, to assure conformance to ethical conducts in carrying out business activities related to their jobs by the company's directors and managerial staffers (including president, executive vice president, senior vice president, vice president, financial chief, accounting chief, and others with the authority of management and signature), so as to prevent unethical conducts and conducts detrimental to the interests of the company and shareholders.

**Chapter 2 Norms for ethical conducts**

**Article 2:** In handling the company's affairs, directors and managerial staffers should embrace a self-disciplined attitude, based on honesty without deception, trustworthiness and law abidance, fairness and justness, and compliance with ethics.

**Article 3:** Directors and managerial staffers should avoid conflict of interests involving meddling or possible meddling with the company's overall interests for personal interests, including, but not limited to, inability to handle corporate affairs in an objective and efficient manner, or provision of improper benefits to themselves, their spouses, parents, children, or relatives within second-degree kinship, thanks to their positions in the company. To prevent conflict of interest, it is necessary to pass the review by the board of directors beforehand, for the company providing loans or guarantee to, or engaging in major transactions of assets with, the aforementioned persons or their associated affiliates. Related purchase or sale should be carried out, on the consideration of the company's maximum benefits.

**Article 4:** In the face of profit-making opportunities for the company, directors and managerial staffers should uphold just and legal benefits available to the company. Directors and managerial staffers shouldn't take advantage of the company's properties or information or their positions to seek personal benefits. In addition to the requirements of the Company Act or corporate charter, they should not engage in business activities, in competition with the company.

**Article 5:** Directors and managerial staffers have the duty of confidentiality for information on the company, suppliers, and customers, except cases with authorized or legally mandated publication. Information which should be kept confidential include those whose utilization by rivals or leakage may harm the interests of the company or customers.

**Article 6:** Directors and managerial staffers should treat the company's suppliers, customers, rivals, and employees in a fair manner, avoiding acquisition of improper benefits via manipulation, concealing, or abuse of information obtained from their positions, untrue narration on major issues, or other unfair transaction methods.

**Article 7:** Directors and managerial staffers should utilize the company's assets properly,

according to the needs of their jobs, and avoid stealth, negligent usage, or waste of the company's assets, which may affect the company's profitability.

Article 8: Directors and managerial staffers should abide by various laws and government regulations, as well as the company's regulations and systems.

Article 9: When discovering violation of laws/regulations or guidelines by directors or managerial staffers, the company's employees should report, along with sufficient evidence, the irregularities to the auditing committee, direct managerial superiors, personnel or internal-auditing chiefs at the President's Office, or other proper parties. After the reports are investigated and confirmed, the company will reward the informant property, according to personnel management regulations.

The company will handle the aforementioned reports in a confidential and responsible manner and make its utmost in protecting the safety of those who make the reports in good faith, to shield them from retaliation in any form.

Article 10: Should directors or managerial staffers be confirmed to violate the guidelines, in addition to penalties according to personnel management regulations, the case should be reported to the board of directors and the offenders should be subject to civil, criminal, or administrative liabilities, in addition to disclosure on the Open Market Observation Post System of relevant information, including date, situation, relevant article of the guidelines of the offense, as well as the state of handling.

### Chapter 3 Procedure for exemption

Article 11: Proposal to exempt directors or managerial staffers from the requirements of the guidelines under special situation should be approved by the board of directors with agreement of over two thirds of the directors in attendance, whose number should be more than half of the total. Relevant information for the exemption should be posted on the Open Market Observation System instantly, including date of approval by the board of directors, opposition or reservation of independent directors, if any, exemption period, reasons for the exemption, and criteria for the exemption, for evaluation of its propriety by shareholders, so as to uphold the company's interests.

### Chapter 4 Method for information disclosure

Article 12: The guidelines should be publicly disclosed on corporate website, in yearbook and prospectus, and on the Market Observation Post System and the requirement also applies to its revision.

### Chapter 5 Supplementary provision

Article 13: The guidelines are put into practice after approval by the board of directors and should be reported to shareholders' meeting; the requirement also applies to its revision.
